Liberal Studies

THE CORE PROGRAM
Announcement for the 43rd and 44th Sessions

GLOBAL LIBERAL STUDIES
Announcement for the 6th and 7th Sessions

New York University
Washington Square
New York, New York 10003

Notice: The online version of the Bulletin (at www.ls.nyu.edu) contains revisions and updates in courses, programs, requirements, and staffing that occurred after the publication of this version. Students who require a printed copy of any portion of the updated online Bulletin but do not have Internet access should see a Liberal Studies advisor or administrator for assistance.

The policies, requirements, course offerings, schedules, activities, tuition, fees, and calendar of the school and its departments and programs set forth in this bulletin are subject to change without notice at any time at the sole discretion of the administration. Such changes may be of any nature, including, but not limited to, the elimination of the school or college, programs, classes, or activities; the relocation of or modification of the content of any of the foregoing; and the cancellation of scheduled classes or other academic activities.

Payment of tuition or attendance at any classes shall constitute a student’s acceptance of the administrations’ rights as set forth in the above paragraph.

The founding of New York University in 1831 by a group of eminent private citizens marked a historic event in American education. In the early 19th century, the major emphasis in higher education was on the mastery of Greek and Latin, with little attention given to modern subjects. The founders of New York University intended to enlarge the scope of higher education to meet the needs of those aspiring to careers in business, industry, science, and the arts, as well as in law, medicine, and the ministry. The opening of the University of London in 1828 convinced New Yorkers that New York, too, should have a new university that fed off the energy and vibrancy of the city.

The first president of New York University’s governing council was Albert Gallatin, former adviser to Thomas Jefferson and secretary of the treasury in Jefferson’s cabinet. Gallatin and his cofounders envisioned a “national university” that would provide a “rational and practical education for all.”

The result of the founders’ foresight is today a university that is recognized both nationally and internationally as a leader in scholarship. NYU is one of only 26 private universities in the nation to have membership in the distinguished Association of American Universities. Students come to NYU from all 50 states and from 141 foreign countries.

New York University includes three degree-granting campuses: New York City, United States; Abu Dhabi, United Arab Emirates; and Shanghai, China. In addition, the University has 11 global academic centers: Accra, Ghana; Berlin, Germany; Buenos Aires, Argentina; Florence, Italy; London, England; Madrid, Spain; Paris, France; Prague, Czech Republic; Sydney, Australia; Tel Aviv, Israel; and Washington, DC, United States. Although overall the University is large, the divisions are small- to moderate-size units—each with its own traditions, programs, and faculty.

Enrollment in the undergraduate divisions at NYU ranges between 129 and 7,330, and the University offers over 9,000 courses and grants more than 25 different degrees. Classes vary in size, but the University strives to create a sense of community among students within and among the different disciplines.

NEW YORK UNIVERSITY LIBRARIES

The Elmer Holmes Bobst Library, designed by Philip Johnson and Richard Foster, is the flagship of an 11-library system that provides access to the world’s scholarship. Bobst Library serves as a center for the NYU community’s intellectual life. With 4.5 million print volumes, 235,000 serial titles, 120,000 electronic journals, 1 million e-books, 163,000 audio and video recordings, and over 41,000 linear feet of special collections archival materials, the collections are uniquely strong in the performing arts, radical and labor history, and the history of New York and its avant-garde culture. The library’s Web site, library.nyu.edu, received 2.5 million visits in 2012–2013.

Bobst Library offers approximately 2,500 seats for student study. The Avery Fisher Center for Music and Media, one of the world’s largest academic media centers, has 134 carrels for audio listening and video viewing and three multimedia classrooms. The Digital Studio offers a constantly evolving, leading-edge resource for faculty and student projects and promotes access to digital resources for teaching, learning, research, and arts events. The Data Service Studio provides expert staff and access to software, statistical computing, geographical information systems analysis, data collection resources, and data management services in support of quantitative research at NYU.

The Fales Library, a special collection within Bobst Library, is home to the unparalleled Fales Collection of English and American Literature; the Marion Nestle Food Studies Collection, the country’s largest trove of cookbooks, food writing, pamphlets, paper, and archives, dating from the 1790s; and the Downtown Collection, an extraordinary multimedia archive documenting the avant-garde New York art world since 1975. Bobst Library also houses the Tamiment Library, the country’s leading repository of research materials in the history of left politics and labor. Two fellowship programs bring scholars from around the world to Tamiment to explore the history of the Cold War and its wide-ranging impact on American institutions and to research academic freedom and promote public discussion of its history and role in our society. Tamiment’s Robert F. Wagner Labor Archives contain, among other resources, the archives of the Jewish Labor Committee and of more than 200 New York City labor organizations.

Beyond Bobst, the library of the renowned Courant Institute of Mathematical Sciences focuses on research-level material in mathematics, computer science, and related fields. The Stephen Chan Library of Fine Arts at the Institute of Fine Arts (IFA) houses the rich collections that support the research and curricular needs of the institute’s graduate programs in art history and archaeology. The Jack Brause Library at SCPS Midtown, the most comprehensive facility of its kind, serves the information needs of every sector of the real estate community. The Library of the Institute for the Study of the Ancient World (ISAW) is a resource for advanced research and graduate education in ancient civilizations from the western Mediterranean to China. The Bern Dibner Library serves the NYU Polytechnic School of Engineering. The libraries of NYU Abu Dhabi and NYU Shanghai provide access to all the resources in BobCat and are building their own collection of books and other print materials in support of the schools’ developing curricula. Complementing the collections of the Division of Libraries are those of the libraries of NYU’s School of Medicine, College of Dentistry, and School of Law.

The NYU Division of Libraries continually enhances its student and faculty services and expands its research collections, responding to the extraordinary growth of the University’s academic programs in recent years and to the rapid expansion of electronic information resources. Bobst Library’s professional staff includes more than 33 subject specialists who select materials and work with faculty and graduate students in every field of study at NYU. The staff also includes specialists in undergraduate outreach, instructional services, preservation, electronic information, and digital information.

THE LARGER CAMPUS

New York University is an integral part of the metropolitan community of New York City—the business, cultural, artistic, and financial center of the nation and the home of the United Nations. The city’s extraordinary
resources enrich both the academic programs and the experience of living at New York University.

Professors whose extracurricular activities include service as editors for publishing houses and magazines; as advisers to city government, banks, school systems, and social agencies; and as consultants for museums and industrial corporations bring to teaching an experience of the world and a professional sophistication that are difficult to match.

Students also, either through course work or in outside activities, tend to be involved in the vigorous and varied life of the city. Research for term papers in the humanities and social sciences may take them to such diverse places as the American Museum of Natural History, the Museum of Modern Art, a garment factory, a deteriorating neighborhood, or a foreign consulate.

Students in science work with their professors on such problems of immediate importance for urban society as the pollution of waterways and the congestion of city streets. Business majors attend seminars in corporation boardrooms and intern as executive assistants in business and financial houses. The schools, courts, hospitals, settlement houses, theatres, playgrounds, and prisons of the greatest city in the world form a regular part of the educational scene for students of medicine, dentistry, education, social work, law, business and public administration, and the creative and performing arts.

The chief center for undergraduate and graduate study is at Washington Square in Greenwich Village, long famous for its contributions to the fine arts, literature, and drama and its personalized, smaller scale, European style of living. NYU itself makes a significant contribution to the creative activity of the Village through the high concentration of faculty and students who reside within a few blocks of the University. NYU’s Polytechnic School of Engineering, located in Downtown Brooklyn, connects academics with creative research and technology in the burgeoning Tech Triangle and is just a short subway ride away from Washington Square.

University apartment buildings provide housing for over 2,100 members of the faculty and administration, and University student residence halls accommodate over 11,000 men and women. Many more faculty and students reside in private housing in the area.

A PRIVATE UNIVERSITY

Since its founding, New York University has been a private university. It operates under a board of trustees and derives its income from tuition, endowment, grants from private foundations and government, and gifts from friends, alumni, corporations, and other private philanthropic sources.

The University is committed to a policy of equal treatment and opportunity in every aspect of its relations with its faculty, students, and staff members, without regard to race, color, religion, sex, sexual orientation, gender and/or gender identity or expression, marital or parental status, national origin, ethnicity, citizenship status, veteran or military status, age, disability, and any other legally protected basis.

Inquiries regarding the application of the federal laws and regulations concerning affirmative action and antidiscrimination policies and procedures at New York University may be referred to Mary Signor, executive director, Office of Equal Opportunity, New York University, 726 Broadway, 7th Floor, New York, NY 10003; 212-998-2352. Inquiries may also be referred to the director of the Office of Federal Contract Compliance, U.S. Department of Labor.

New York University is a member of the Association of American Universities and is accredited by the Middle States Association of Colleges and Schools (Commission on Higher Education of the Middle States Association of Colleges and Schools, 3624 Market Street, Philadelphia, PA 19104; 215-662-5606). Individual undergraduate, graduate, and professional programs and schools are accredited by the appropriate specialized accrediting agencies.
University Administration

SENIOR UNIVERSITY ADMINISTRATION

**John Sexton**, B.A., M.A., Ph.D., J.D., President

**David W. McLaughlin**, B.S., M.S., Ph.D., Provost

**Richard S. Baum**, B.A., Chief of Staff to the President

**Robert Berne**, B.S., M.B.A., Ph.D., Executive Vice President for Health

**Martin S. Dorph**, B.S., M.B.A., J.D., Executive Vice President, Finance and Information Technology

**Katherine Fleming**, B.A., M.A., Ph.D., Deputy Provost and Vice Chancellor, Europe

**Richard Foley**, B.A., M.A., Ph.D., Vice Chancellor for Strategic Planning

**Alison Leary**, B.S., Executive Vice President for Operations

**Linda G. Mills**, B.A., J.D., M.S.W., Ph.D., Vice Chancellor for Global Programs and University Life, NYU; Associate Vice Chancellor for Admissions and Financial Support, NYU Abu Dhabi; Lisa Ellen Goldberg Professor

**Ellen Schall**, B.A., J.D., Senior Presidential Fellow

**Diane C. Yu**, B.A., J.D., Deputy President

**Bonnie S. Brier**, B.A., J.D., Senior Vice President, General Counsel, and Secretary of the University

**Lynne P. Brown**, B.A., M.A., Ph.D., Senior Vice President for University Relations and Public Affairs

**Norman Dorsen**, B.A., LL.B., Counselor to the President

**Paul M. Horn**, B.S., Ph.D., Senior Vice Provost for Research; Senior Vice Dean for Strategic Initiatives and Entrepreneurship, Polytechnic School of Engineering

**Debra A. LaMorte**, B.A., J.D., Senior Vice President for Development and Alumni Relations

**Ron Robin**, B.A., M.A., Ph.D., Senior Vice Provost for Global Faculty Development, NYU; Senior Vice Provost for Faculty Development, NYU Abu Dhabi and NYU Shanghai

**Matthew S. Santirocco**, B.A. [Cantab.]; MPhil, MA [Cantab.], PhD; hon.: MA, Senior Vice Provost for Academic Affairs

**Katepalli R. Sreenivasan**, B.E., M.E., M.A., Ph.D.; hon.: DSc, Executive Vice Provost for Engineering and Applied Sciences; Dean, Polytechnic School of Engineering

**Marc L. Wais**, B.S., M.B.A., Ed.M., Ed.D., Senior Vice President for Student Affairs

**Deans and Directors**

**Roger Bagnall**, B.A., M.A., Ph.D., Director, Institute for the Study of the Ancient World

**Gérard Ben Arous**, B.S., M.Sc., PhD, Director, Courant Institute of Mathematical Sciences; Vice Provost for Science and Engineering Development

**Lauren Benton**, B.A., Ph.D., Dean, Graduate School of Arts and Science

**Charles N. Bertolami**, D.D.S., D.Med.Sc., Herman Robert Fox Dean, College of Dentistry

**Alfred H. Bloom**, B.A., Ph.D.; hon.: LL.D., Vice Chancellor, NYU Abu Dhabi

**Dominic Brewer**, B.A., M.A., Ph.D., Gale and Ira Drukier Dean, Steinhardt School of Culture, Education, and Human Development

**Thomas J. Carew**, B.A., M.A., Ph.D.; hon.: MA, Anne and Joel Ehrenkranz Dean, Faculty of Arts and Science

**Joy Connolly**, B.A., Ph.D., Dean for Humanities, Faculty of Arts and Science

**Dennis DiLorenzo**, B.A., Harvey J. Stedman Dean, School of Professional Studies

**Sherry L. Glied**, B.A., M.A., Ph.D., Dean, Robert F. Wagner Graduate School of Public Service

**Allyson Green**, B.F.A., M.F.A., Dean, Tisch School of the Arts

**Robert I. Grossman**, B.S., M.D., Saul J. Farber Dean, NYU School of Medicine; Chief Executive Officer, NYU Hospitals Center

**Cheryl G. Heaton**, B.A., M.P.A., Dr.P.H., Director, Global Institute of Public Health; Dean of Global Public Health

**Peter Blair Henry**, B.A., B.A., Ph.D., Dean, Leonard N. Stern School of Business
Steven E. Koonin, B.S., Ph.D.,
Director, Center for Urban Science and Progress

Michael Laver, B.A. (hons.), M.A., Ph.D., Dean for Social Sciences, Faculty of Arts and Science

Jeffrey S. Lehman, B.A., J.D., M.P.P.,
Vice Chancellor, NYU Shanghai

Carol A. Mandel, B.A., M.A.,
M.S.L.S., Dean of Libraries

Geeta Menon, B.A., M.A., Ph.D.,
Dean, Undergraduate College, Leonard N. Stern School of Business

Trevor W. Morrison, B.A. (hons.)
[British Columbia]; J.D., Dean, School of Law

Michael D. Purugganan, B.S., M.A., Ph.D.,
Dean for Science, Faculty of Arts and Science

Paul Romer, B.S., Ph.D.,
Director, Marron Institute of Urban Management

Patricia Rubin, B.A., M.A., Ph.D.,
Judy and Michael Steinhardt Director, Institute of Fine Arts

Fred Schwarzbach, B.A., M.A., Ph.D.,
Dean of Liberal Studies, Faculty of Arts and Science

Katepalli R. Sreenivasan, B.E., M.E., M.A., Ph.D.; hon.: D.Sc., Dean, Polytechnic School of Engineering: Executive Vice Provost for Engineering and Applied Sciences

G. Gabrielle Starr, B.A., M.A., Ph.D.,
Seryl Kushner Dean, College of Arts and Science

Eileen Sullivan-Marx, B.S.N., M.S., Ph.D., C.R.N.P., R.N., F.A.A.N.,
Dean, College of Nursing

Lynn Videka, B.S.N., M.A., Ph.D.,
Dean, Silver School of Social Work

Susanne L. Wofford, B.A.; B.Phil.
[Oxon.], Ph.D., Dean, Gallatin School of Individualized Study

Yu Lizhong, B.Sc., Ph.D., Chancellor, NYU Shanghai

An Introduction to Liberal Studies: The Core Program & the Global Liberal Studies B.A.

Liberal Studies houses two programs: the Core Program, a two-year core curriculum program (HEGIS Code 5699*) from which students transition to other NYU schools to complete their bachelor’s degree, and the Global Liberal Studies Bachelor of Arts four-year degree program (HEGIS Code 4901*).

The Core Program is a full-time, two-year liberal arts program. It offers a comprehensive liberal arts background that serves as a strong foundation for further study. At the end of their studies, students who successfully complete the program requirements with a minimum GPA of 2.0 will enroll as juniors in one of NYU’s liberal arts bachelor’s degree programs in the College of Arts and Science; Liberal Studies; the Gallatin School of Individualized Study; the Preston Robert Tisch Center for Hospitality, Tourism, and Sports Management; the Silver School of Social Work; or in select liberal arts programs at the Steinhardt School of Culture, Education, and Human Development and the Tisch School of the Arts.

The Core Program academic experience is built upon an interdisciplinary core curriculum that fulfills the liberal arts requirements of all the undergraduate programs at NYU. The Core Program is distinguished by small classes and an environment in which faculty and students work closely together to develop a community dedicated to learning. The Core Program functions like a small liberal arts college within the framework of a major research university.

The Core Program was founded in 1972. Its faculty are actively engaged in their scholarly, creative, and professional fields, and they bring enormous enthusiasm and dedication to their teaching. The program fosters close contact between faculty and students in and out of the classroom, and all students are assigned a faculty mentor from the beginning of their studies. The hallmarks of the Core Program—small classes, an outstanding teaching faculty, individual advisement, and an integrated program of study—create an ideal learning environment. Over 16,000 students have successfully completed the program and graduated from one of NYU’s baccalaureate programs.

The Global Liberal Studies Bachelor of Arts (GLS) is an innovative program that features core course work in the liberal arts with a focus on great works in a global context, bringing the traditional liberal arts into the twenty-first century.

GLS offers a rigorous course of study that combines ideas, materials, and methodologies from multiple fields of inquiry, including literature, history, philosophy, political science, physical and biological sciences, mathematics, foreign language, music, and art. The core curriculum is infused with global perspective, and sophomore seminars both reinforce this and prepare students to spend their junior year abroad at one of NYU’s many international campuses in Asia, Europe, the Middle East, and Latin America. The senior year in New York combines advanced course work with a guided research project that integrates the four years of study.

Graduates of GLS will be world leaders, proficient in a foreign language, engaged in international cultures, and well-prepared for their careers and for admission to professional and graduate schools.

THE CORE PROGRAM

The Core Program is a liberal education curriculum that is based on the reading of great works and includes courses drawn from NYU’s other undergraduate schools and colleges, allowing students to begin their major during their first two years. All courses in the program take an interdisciplinary and global approach to the study of primary works from around the world. Students may begin their studies in New York, or at NYU in Florence, London, or Paris. All classes emphasize discussion in small groups. Writing classes are capped at fifteen students, all other classes are capped at twenty-five. At each site, the cultural resources and contemporary life of the city are an important part of coursework. Students extend their education outside the classroom by exploring different ethnographic spaces, attending musical and theatrical presentations, visiting museums, and sites of historical and contemporary social interest.

Curriculum Overview and Requirements

The Core Program offers a comprehensive liberal arts background that serves as a strong foundation for further study. At the end of two years* students in the Core Program who successfully complete program requirements will enroll as juniors in one of NYU’s liberal arts bachelor’s degree programs: the College of Arts and Science (CAS); the Gallatin School of Individualized Study; Global Liberal Studies; or degree programs in the Preston Robert Tisch Center for Hospitality, Tourism and Sports Management; the Silver School of Social Work; and the College of Nursing, as well as select majors in the Tisch School of the Arts and the Steinhardt School of Culture, Education, and Human Development. In order to transition, students must meet specific program requirements and be in good academic standing at the end of their sophomore year at NYU. Good academic standing is defined as a 2.0 semester and cumulative grade point average and making good academic progress.

*The Core Program is a four-semester program.

Freshman Curriculum Requirements

All freshmen are required to complete a two-semester freshman writing sequence focusing on expository writing, the presentation of argument, and the elements of research. The freshman core courses Cultural Foundations I and II and Social Foundations I and II are based on the study of great works from antiquity to the beginning of the modern era. In the Cultural Foundations sequence, students study literature, the visual and performing arts, and music. In the Social Foundations sequence, students focus on philosophy, religion, political and social theory, and history. Taken together, the two sequences can be seen as a global cultural history. The sequences also provide an introduction to skills in critical analysis and synthetic thinking that students need for successful study in all academic disciplines. Depending on the requirements of their intended baccalaureate program, students may also take a course in the natural sciences and mathematics.

Sophomore Curriculum Requirements

During the sophomore year, students are required to complete Cultural Foundations III and Social Foundations III that bring the sequences begun in the first year up to the present day. In the sophomore year, students also complete a second science (if required by the school to which they will transition), explore possible majors, and begin the coursework toward those majors in the appropriate academic departments. Core Program students are expected to schedule meetings with their advisor during which they receive advice about choosing additional courses from NYU’s extensive offerings. By the end of the sophomore year, a student should be able to declare a major.

Other Requirements

Residency Requirement

The Core Program is a four-semester program. Students planning to transition to one of the baccalaureate programs at NYU normally must complete four semesters of full-time enrollment in the Core Program. Full-time enrollment is defined as the completion of a minimum of 12 credit hours in each of the four semesters. Summer session enrollment will not be counted toward the residency requirement. Note: Other NYU schools and colleges have specific residency requirements. Students should consult the Web sites and bulletins of
those schools and colleges for up-to-date information about these requirements.

**Writing Proficiency Requirement**

Writing proficiency is required for the NYU bachelor’s degree. The writing proficiency requirement is fulfilled by completing the Writing II course with a minimum grade of C.

**Quantitative Reasoning (Mathematics) Requirement**

Students in the Core Program must fulfill the mathematics and/or science requirements for the bachelor’s degree to be conferred by an undergraduate school or college of NYU. The Core Program requires only one mathematics or one science course prior to transition; however, it is recommended that students transitioning to CAS take both science courses required by CAS while in Liberal Studies (LS). The choice of major often determines which mathematics class is required. LS does not offer mathematics courses; students take the appropriate courses offered at CAS. Students should consult the LS Advising Center staff and refer to the specific departmental Web sites and bulletins for information about the mathematics requirements for their bachelor’s degree program.

**Core Program Electives**

While enrolled in the Core Program, students take courses at the NYU school or college where they will earn their bachelor’s degree. While these courses are considered electives in the Core Program, they should be selected so that they fulfill either school, major, or minor requirements in the school to which students intend to transfer. Students in the Core Program may also take any of the electives open to Global

(See page 28 for detailed course descriptions.)

*LS students studying in Florence, London, and Paris take equivalent LS and NYU courses and credit hours. For more information, go to: www.nyu.edu/global/global-academic-centers/freshmen-abroad-programs.html.

†Students pursuing a prehealth track do not take LS science courses but will be advised to take appropriate required courses at the College of Arts and Science. The LS curriculum guidelines for students transitioning to the College of Arts and Science for prehealth are posted at www.nyu.edu/as/lsp/advising/StudentAdvising.

†**Some students take these courses during the sophomore year.

**See “Quantitative Reasoning (Mathematics) Requirement” at left for more information.
Liberal Studies students, as well as Advanced Writing Studio, Global Topics, and Approaches courses—space permitting. Core Program students may not register for the Junior Independent Research Seminar, Experiential Learning I and II, or the Senior Colloquium/Thesis. They may petition to take a Senior Seminar.

GLOBAL LIBERAL STUDIES B.A.

The Global Liberal Studies (GLS) Bachelor of Arts is part of the family of Global Studies degrees offered at universities around the world. Global Studies examines the causes, consequences, and nature of globalization from its beginnings in the ancient world to the present. GLS is distinguished by its humanistic emphasis; it focuses on understanding the political, social, and cultural ramifications of living in a world of intersecting local, national, and global forces. GLS students are trained in strategic thinking by engaging in interdisciplinary study of the entire world as an interconnected system, and they get practical experience living and working across cultures through a required junior year at an NYU global site. GLS students focus their work in a particular area of expertise during the junior and senior year, preparing them for more advanced studies or work in such fields as international finance, global media, and human rights.

Curriculum Overview and Requirements

GLS is an integrated, four-year curriculum. All students must complete a core curriculum, a concentration selected from among departmental offerings, the junior year at an NYU global site, a senior thesis, and additional requirements outlined below. All GLS classes are small, discussion-based, and writing-intensive. Students and their instructors chart their progress through use of an ePortfolio, building their portfolios and making new connections with other students and faculty members throughout all four years, and gathering resources to draw upon in composing their senior theses. Students have sufficient elective credits to complete a minor or a second major at NYU.

The Core Curriculum

The basis of the GLS curriculum is an eight-course core that equips students to write in numerous genres and contexts, acquaints them with foundational great works from around the world that remain influential today, introduces fundamental scientific concepts and methods, and involves them in close study of at least one non-Western region. Students read the foundational works of many world cultures in their material and intellectual contexts and independently make critical and imaginative connections across time and space.

Students may begin GLS in New York or at NYU Florence, London, or Paris. The GLS programs in Florence, London, and Paris fit in seamlessly with the academic program at Washington Square so that course requirements are met on time for graduation in four years.

The Upper Division Curriculum

The GLS upper division curriculum centers on a student's concentration, which they declare in the fall of sophomore year. Students may begin taking upper division courses as early as the spring of freshman year and must take a minimum of four courses in their concentration: Approaches, Junior Independent Research Seminar, and the year-long Senior Colloquium/Thesis class; a sequence that provides instruction in the theories and methods of a particular area of the Global Studies field. Students take progressively greater responsibility for directing their own independent projects, culminating in the senior thesis.

In addition to their concentration-specific classes, students take a variety of required seminars and electives on global topics, from economic and political issues to arts and media, from the growth of immense global networks to the nature of ethnicity in everyday local life. These seminars require the completion of a significant research project. Sophomores also normally complete an intensive language course in preparation for the junior year of international study.

The Junior Year Curriculum

All GLS juniors spend a full year studying at an NYU global academic center. The sites available in a given year are carefully selected to ensure that all required courses are available and to optimize access to experiential learning options. The locations for junior year study in a typical year include NYU global sites in Asia, Europe, Latin America, and the Middle East. (See page 61 for descriptions of every NYU global site.) Students do not just study at an international site—the site itself becomes an important subject of study. Experiential learning, special topics, and language courses immerse students in the history and contemporary culture of the site and set it in a global context, while students prepare for their senior theses by developing a substantial research essay in an online course that
connects them with their classmates at other sites to create a global perspective on issues.

The Experiential Learning component comprises two courses that involve students in a cycle of experience, reflection, and the formulation of concepts that, in turn, guide the understanding of place-based experiences. These experiences take the form both of group community excursions and individual community placements (such as internships, volunteer opportunities, and, on occasion, individual research projects). The goal is to involve students with the workplace culture and social practices of the site city so that they may reflect on and formulate concepts about the creation of the city's cultural and social milieu and its relation to global frameworks in a way that is informed by their concentration.

The principal aim of Experiential Learning I is immersion in the current and historical character of the site. Classroom instruction provides an interdisciplinary perspective on the local, regional, national, and global forces that have shaped the character of life in the site city. Experiential Learning II focuses on the student's community placement; with the guidance of the instructor, students independently reflect on and formulate concepts relating directly to their community placement. The community placement, which the student actively participates in securing with guidance from relevant personnel, falls within the area defined by the student's GLS concentration and, as much as possible, relates to individual academic interests.

The Senior Year Curriculum
During senior year, students return to New York for a year of coursework and guided research that integrates their junior year of international study with the liberal arts foundation established in freshman and sophomore year. Two required Senior Seminars challenge students to engage at an equal level with the major scholarship and most advanced practices concerning any of an array of global issues and themes. Guided electives allow students to extend their studies on topics of personal interest or to complete a minor or second major.

The full-year Senior Colloquium/Thesis course completes the student's progress toward full intellectual independence while allowing him or her to investigate in a global framework the particular experiences of the junior year site. Drawing on the insights from across their four years in the program, students master the precise aspect of global interchange on which they choose to focus, ensuring they graduate with genuine expertise on a topic important to them, potential future employers, and graduate or professional schools. Each section of the course unites students in the same concentration who have spent their junior year at various locations; thus helping students gain a global perspective on their topics. The Colloquium/Thesis course offers grounding in the theoretical texts relevant to advanced work in the concentration, close guidance in the composition of the thesis, and practice in the oral presentation of complex ideas. In addition to subject expertise, the skills the Colloquium/Thesis course teaches—defining a major project's parameters, testing concepts against actual experience, interpreting evidence and integrating the interpretations of prior thinkers, and writing an extended argument—are all germane to almost any future career.

Other Requirements
Writing Proficiency Requirement
Writing proficiency is required for the NYU bachelor's degree. The writing proficiency requirement is fulfilled by completing the Global Writing Seminar with a minimum grade of C.

Intensive Language Study Requirement
Language study is a keystone of GLS, as one cannot understand global history and issues without extended study of a language besides English. All GLS students engage in advanced foreign language study, regardless of their initial level of proficiency. GLS has a language study requirement as well as a language proficiency requirement. Students must both attain proficiency through at least the intermediate level and study in the language of their junior year international site during each semester at the site; in addition, students must have proficiency through the beginning level (normally courses I/II in a sequence, which may be taught in a single intensive semester) before studying at an international site. Thus, a student who does not speak the language of the junior year site host country will be expected to take at least one semester of the appropriate intensive language course before the junior year or one year of the language if it is not offered in intensive format. But regardless of the level of prior fluency, study of the site language must continue in each semester of the junior year. Students who already have some level of proficiency in the language of the junior year site will take a placement

LIBERAL STUDIES ACADEMIC PROGRAMS • LIBERAL STUDIES • NEW YORK UNIVERSITY 17
test and either continue language study at a higher level (for example, in an advanced grammar class and one conversation class) or take one higher level language instruction class and one class taught in the language of the host country. Students who already have advanced or near-native proficiency will take two classes taught in the language of the host country during the junior year. Fluency is established by testing out of the intermediate level (normally, level IV) in the language department’s placement test.

GLS Electives

Students complement their GLS course work with a wide array of electives in GLS and in other NYU schools chosen in careful consultation with their advisor. These may include Introduction to Global Studies, Principles of Macroeconomics, Principles of Microeconomics, Creative Writing: Global Voices, Creative Writing: Places, Internship Seminar, various Topics In Humanities electives, and advanced language instruction in CAS. Students also may pursue a cross-school minor, of which more than 100 are available, including several languages and economics in CAS, business studies in CAS and NYU Stern School of Business, and communication studies in the NYU Steinhardt School of Culture, Education, and Human Development.

(See page 28 for detailed course descriptions.)
The academic advising system is designed to help students navigate a complex university, identify students’ academic goals, and provide advice and information about how best to achieve those goals. Liberal Studies (LS) is student-oriented: class size is kept small to ensure substantial faculty-student interaction, faculty know their students by name, and the academic advising system provides academic support and problem-solving services. Together, students and their advisors and mentors establish working relationships that foster academic excellence and personal growth. Visit the Academic Advising Web site (www.nyu.edu/as/lsp/advising/StudentAdvising) for additional advising resources.

PROFESSIONAL STAFF ADVISORS
The LS Advising Center, located at 726 Broadway, 6th Floor, New York, NY 10003, is open Mondays through Fridays from 9 a.m. to 5 p.m. LS academic advising staff is available for individual in-person meetings with students or via e-mail and Skype for students studying abroad.

Core Program
All Core Program students are assigned a professional academic advisor who will work with them throughout their undergraduate career. The academic advising staff is a resource for students regarding transition requirements to their baccalaureate program. The LS Advising Center also provides information to students about meeting deadlines for registering for courses, making schedule changes, withdrawing from courses, satisfying incompletes, applying for internal transfer, and applying for study abroad. E-mail announcements are sent to flag these deadlines and to announce the schedule of pre-registration information sessions each semester. Core Program students can register for classes via Albert (NYU’s online registration system) only after being cleared to register, and they are approved for registration clearance each semester by their advisor. All Core Program students are required to attend a pre-registration session before scheduling a registration meeting with their advisor. Advisors remind students of the degree and transfer requirements yet to be satisfied, give advice about choosing electives, and answer students’ questions about majors, requirements, and deadlines.

Global Liberal Studies
All GLS students are assigned a professional staff advisor who will work with them throughout their undergraduate career. The academic advisor is a resource to assist students with matters such as registering, understanding degree requirements, selecting electives, choosing minors and second majors, understanding study abroad options, making schedule changes, satisfying incompletes, and withdrawing from courses. GLS students can register for classes via Albert only after being cleared to register, and they are approved for registration clearance each semester by their advisor.

FACULTY MENTORS
In addition to the services offered by the LS Advising Center, all LS students are also mentored by an LS faculty member. Faculty mentors engage in discussions about student interests, aspirations, and new perspectives on life. Faculty mentors may also refer students to a professional advisor in the LS Advising Center to have an academic or registration issue solved; to the NYU Student Health Center for medical treatment or psychological counseling; to the Wasserman Center for Career Development to get expert advice about finding an internship, developing a résumé, or beginning a job search; or to specific NYU departments, resources, or Web sites to obtain additional information. Students have a responsibility to be proactive in arranging and keeping appointments with their faculty mentor.

Core Program
All Core Program students are assigned a faculty mentor, who they are normally advised by for the two years that they spend in the Core Program. Faculty mentors in the Core Program engage students in conversations about the curriculum, its relation to their undergraduate experience, and its intended impact on lifelong intellectual and professional pursuits. They focus their mentorship on guiding students to realistic academic goals, encouraging self-reliance, and making informed decisions.
Global Liberal Studies

A designated faculty mentor works with each entering GLS class (in the cohort model) during the freshman year. In the sophomore year, GLS students declare a concentration and are assigned a concentration-specific faculty mentor, who works with his or her mentees until they graduate. Students work closely with their faculty mentor throughout the semester and may discuss the GLS curriculum, its relationship to the total undergraduate experience, and its impact on lifelong intellectual pursuits. Students should also discuss the relationship of their interests to their academic aspirations. Students maintain close contact with their faculty mentor during their junior year, and in their senior year, students also work closely with their thesis supervisor.

TRANSITION REQUIREMENTS FOR STUDENTS IN THE CORE PROGRAM

Core Program students who complete the two-year curriculum will have met most or all of the liberal education requirements of other schools or colleges at NYU. Core Program students identify to their advisors their intended degree-granting school in their sophomore year, prior to registering for their spring semester classes. Students must confirm their school of transition with the admissions office by March 1; this deadline is strictly enforced. However, discussions regarding the various NYU schools and potential majors should be an ongoing element of all conversations between Core Program students and their professional academic advisor and faculty mentor.

Students must be in good academic standing with the University (typically defined as 2.0 semester and cumulative grade point average and making good academic progress) and have successfully completed the Core Program requirements in order to be eligible for transition. Core Program students have the option to build on their global, interdisciplinary foundation by pursuing the Global Liberal Studies B.A. offered within Liberal Studies, or they may choose to enroll as juniors in one of NYU's other degree-granting schools: the College of Arts and Science (CAS); the Gallatin School of Individualized Study; the Preston Robert Tisch Center for Hospitality, Tourism, and Sports Management; the Silver School of Social Work; and the College of Nursing; as well as select majors in the Tisch School of the Arts and the Steinhardt School of Culture, Education, and Human Development.

Some programs and schools require students to complete specific courses to be eligible for transition to their degree-granting programs; the most current transition information is available in the LS Advising Center. Tisch School of the Arts programs require successful demonstration of talent through an audition (for drama or dance) or a portfolio (for film, photography, or dramatic writing). Core Program students transitioning to Steinhardt's Media, Culture and Communication (MCC) program are encouraged to have one MCC core course on their transcript before transition. Core Program students transitioning to Gallatin are encouraged to have one Gallatin interdisciplinary seminar on their transcript before transition. Core Program students intending a transition to CAS are encouraged, but not required, to sample at least one course in the department of their prospective major. Prehealth students have particular course requirements that must be taken in sequence and finished within a certain time period. Core Program prehealth students should visit www.nyu.edu/as/lsp/advising/StudentAdvising for curriculum guidelines, as well as meet with their LS prehealth advisor.

ADDITIONAL ACADEMIC OPPORTUNITIES FOR STUDENTS IN GLS

Global Liberal Studies (GLS) students are eligible to take advantage of the academic programs listed below. Each program offers GLS students the opportunity to add an area of expertise or academic study to their GLS educational experience by earning credits for a minor or second major in another field, or a combined bachelor's/master's degree.

Each program has specific requirements, and students should refer to the Web sites listed below for additional information. Students are also advised to confer with an academic advisor in the Liberal Studies (LS) Advising Center, who can help students consider available options for taking courses in other NYU schools and choose those that best fit their academic goals. The opportunity to pursue and complete any of these academic programs depends on a variety of factors including academic record, academic goals, course scheduling and sequencing, program requirements, and advance planning. Note: These optional programs supplement the GLS bachelor's degree and do not replace GLS requirements.
Cross-School Minors

The cross-school minors program allows students to complete the course requirements for certain minors in an NYU school in which they are not enrolled. The specific minor designation will appear on the student’s NYU transcript. A number of academic departments in several NYU schools offer cross-school minors in a range of disciplines. For additional information about declaring a minor and enrolling in classes, students should consult with their academic advisor and the Web site provided, which also lists contact information of the school and departmental representatives for each cross-school minor: www.nyu.edu/cross-school-minors.

Double Major

Students may take a double (second) major in the CAS. The same requirements, including the maintenance of a minimum grade point average of 2.0, apply to the second major as to the first. In some cases, courses may be applicable to both majors. Students must then obtain the written approval for the shared course(s) from the directors of undergraduate studies of both departments. To declare a major, students must go to the office of the department or program to declare a major and have it posted in the Student Information System (Albert).

Accelerated B.A./M.A. Program

GLS and the Graduate School of Arts and Science (GSAS) offer GLS students the opportunity to earn both the Bachelor of Arts degree in GLS and a master’s degree in numerous departments in a shorter period of time and at less cost than is normally the case. Qualifying students are typically accepted into a program toward the end of the sophomore year or during the junior year. In their remaining undergraduate semesters, they can then accelerate by taking some graduate courses during regular terms and/or during the summer. In the graduate portion of the program, students can qualify for a scholarship covering up to 50 percent of the tuition for the master’s degree. The scholarship is only for one year.

The program is intended for students whose career goals will be furthered by graduate-level training but do not plan—at least not immediately—to go on for doctoral work in the field of their M.A. degree.

Curriculum

Students in the program must satisfy all of the requirements of both the bachelor’s degree and the master’s degree; there is no double-counting of courses.

In order to complete the program in five years, students are advised to complete at least a quarter of the graduate courses required for the master’s degree before earning the bachelor’s degree. This would mean two graduate courses for a master’s program consisting of eight courses, or three graduate courses for a program consisting of nine or more courses. If more credits, a significant thesis, or a capstone project is required for the master’s, students can accelerate more rapidly by taking additional graduate courses before they complete the bachelor’s degree.

Admission and Eligibility Criteria

Applicants must have completed a minimum of three semesters toward the bachelor’s degree (at least one semester in LS is also required for transfer and transition students), and prior to their final two undergraduate semesters. To be eligible, students must have a minimum of two full semesters remaining in CAS or GLS during which they are still working towards completion of undergraduate requirements. Participating departments set minimum GPA requirements for admission to and continuation in the program; neither may be below 3.5.

Scholarships and Financial Aid

Students admitted into the B.A./M.A. program are eligible for a tuition scholarship covering 50 percent of the credits required for the master’s portion of the program. The scholarship is provided upon completion of the bachelor’s degree. It is calculated on the basis of (a) the remaining credits needed for the master’s degree and (b) additional payments the student may have made in order to accelerate study while matriculated for the bachelor’s degree (tuition for more than 18 credits during a fall/spring semester due to graduate course enrollment, or for summer graduate courses). The tuition scholarship will remain available for twelve months from the start of the student’s first term in GSAS. Beyond the tuition scholarship, students may be eligible for additional forms of financial aid once they matriculate into GSAS.

Application Procedures

Students interested in the accelerated B.A./M.A. program should consult their academic advisor for the application procedures. As early as possible, students should discuss with their professional advisor how the program might fit into both their curricular program and
their long-term plans. Students are also encouraged to discuss their plans with their faculty mentor. See www.gls.nyu.edu/page/bama for more information.

Dual Degree B.A./M.P.A. Program

GLS and the Robert F. Wagner Graduate School of Public Service have created a dual-degree program to enable students to earn both a Bachelor of Arts degree in GLS and a Master of Public Administration (M.P.A.) degree in either Wagner’s Public and Nonprofit Management and Policy Program (PNP) or its Health Policy and Management Program (HPAM) in less time than it would take to complete the programs separately. This dual degree is designed for students with a strong commitment to public leadership and will allow such students to enhance and focus their opportunities for learning while helping them to build a career in public service.

Taken separately, a student would need to complete 188 credits to earn both degrees in four years of study at Liberal Studies and two years of study at Wagner. The B.A./M.P.A. dual degree will allow a GLS student to complete both degrees in as few as 160 credits. The dual degree permits GLS students to accelerate their progress toward the M.P.A. by earning a maximum of 28 credits toward the M.P.A. as part of their GLS degree.

GLS students may complete a maximum of 28 of the 60 credits required for the M.P.A. while still working on the B.A. (Note that 28 credits is a maximum. Fewer credits may be taken, but this will likely result in a less accelerated timeline toward completion of the dual degree.) These 28 credits typically comprise five Wagner core courses and two courses chosen from the student’s anticipated area of specialization. Only courses in which students earn a B or better will count toward the M.P.A. degree.

Note: GLS students participating in the B.A./M.P.A. dual degree are granted the opportunity to enroll in graduate coursework before completing the undergraduate degree, but this does not guarantee outright acceptance into the Wagner M.P.A. program. Students wishing to pursue the M.P.A. degree must also complete a regular Wagner M.P.A. Application for Admission during their senior year in GLS. Applicants will be expected to meet the same admissions standards as other Wagner applicants, which include strong academic qualifications and the equivalent of at least one year of relevant professional experience (i.e., internships, volunteer work, part-time jobs). As such, before matriculating in the Wagner School and after completing the B.A. degree in GLS, students admitted to Wagner’s M.P.A. program are required to complete at least one additional year of full-time professional experience relevant to their anticipated field of study for the M.P.A. degree. In short, GLS B.A./M.P.A. students must defer starting their M.P.A. by at least one year after graduating from GLS.

Advisement And Questions

Students who are interested in the accelerated B.A./M.P.A. program should consult the LS Advising Center. As early as possible, students should discuss with an advisor how the program might fit into both their curricular program and their long-term plans.

Questions about eligibility for, or application to, the B.A./M.A. program or the B.A./M.P.A. program should be directed to the LS Advising Center. Students are also encouraged to discuss their plans with their faculty advisor.
LIBERAL STUDIES OFFICE OF GLOBAL PROGRAMS

The Liberal Studies (LS) Office of Global Programs, located at 726 Broadway, 6th Floor, New York, NY 10003, is open Mondays through Fridays from 9 a.m. to 5 p.m. The Director of Global Programs and a team of global academic advisors are available for individual in-person meetings with students, email or Skype meetings with students studying away from the New York City campus (ls.abroad@nyu.edu), and on-site meetings each semester with students studying at one of the global academic centers. The Global Programs staff serves as a resource to assist study abroad students with matters such as registration deadlines, degree requirements, making schedule changes, pre-departure preparation, and more.

THE CORE PROGRAM GLOBAL STUDY

NYU encourages every undergraduate to have an international study experience. The Core Program offers freshmen and sophomores an extraordinary array of opportunities to study outside of New York City at any of NYU’s many global academic centers.

In addition to the academic programs outlined below, LS students in the Core Program also may participate in NYU Summer Study Abroad programs. For more information, visit www.nyu.edu/summer/abroad. LS students who are members of the Dean’s Circle University Scholars program may have the opportunity to travel internationally as part of the program.

Freshman Global Study

Core Program students may choose to begin their program in New York or at NYU in Florence, London, or Paris.* Students in these global programs enroll in three full-year core courses (Cultural Foundations, Social Foundations, and Writing) and additional courses designed to enhance their international experience (for example, Italian language in Florence) and to more deeply integrate them into the local community. Students in these global programs live and learn at NYU global academic centers, which offer NYU courses in NYU-managed academic facilities, a full-time staff, faculty hired locally and appointed by a committee in New York, and guaranteed student housing assignments. Detailed information about these and all the NYU global sites can be found at www.nyu.edu/studyabroad or on page 61.

Core Program students may be selected by the Office of Undergraduate Admissions for a particular freshman site abroad based on their Admissions application profile. Additionally, students may indicate on their Admissions application that they would like to begin at a freshman year site in Europe instead of New York City.

At the completion of their freshman year abroad, students matriculate as sophomores in the Core Program at the New York City campus, where they will continue the Core Program curriculum in preparation for enrolling as juniors in one of NYU’s liberal arts bachelor’s degree programs.

*Passports valid six months beyond the end date of the academic year will be required for LS students who wish to enroll in the freshman program at a global site. In addition, the majority of students attending the freshman year program in Europe will be required to independently secure a student visa valid for the dates of the program. Tourist visas are not acceptable for the purposes of study.

Students must be eighteen years of age on or before the date of travel to the site for the purposes of study.

Freshman Year in Florence

Core Program students who spend their freshman year at NYU Florence participate in an intellectual and cultural community that explores the intersection of history and current affairs. Students will take required Core Program courses in the humanities, arts, and social sciences, as well as Italian language. The academic program in Florence includes visits to many important museums and historic sites in the region.

Freshman Year in London

Core Program students who spend their freshman year at NYU London pursue an academic program that integrates liberal arts education with the city’s centuries-old historic landmarks and its contemporary cultural resources. Students take required Core Program...
courses in the humanities, arts, and sciences.

**Freshman Year in Paris**

Core Program students who spend their freshman year at NYU Paris engage in an immersive academic and cultural program. Students take required Core Program courses in the humanities, arts, and social sciences, as well as French language. The academic and extracurricular programs include activities that expose students to the rich history and cultural offerings of Paris.

For more information about LS’s global programs for freshmen, visit www.nyu.edu/global/global-academic-centers/freshmen-abroad-programs/liberal-studies-freshmen-programs.html.

**Sophomore Global Study**

Students interested in sophomore study away opportunities should consult with an advisor no later than the spring semester of freshman year to ensure that they plan their academic program accordingly.

**Fall Away Programs**

Core Program students may choose to study away in the fall semester of their sophomore year at one of two NYU global academic centers: NYU Florence and NYU Washington, D.C. Unique to Liberal Studies, this “Fall Away” academic program allows students to take their required courses at one of NYU’s global academic centers, to maximize their study away opportunities, and to explore new fields through electives in small and supportive class settings.

**Fall in Florence**

Core Program sophomores who spend their fall semester at NYU Florence participate in an intellectual and cultural community that explores the intersection of history and current affairs. Students take required Core Program courses, Cultural Foundations III and Social Foundations III, in a unique, paired format that completes the sequence in one semester. Students may also take appropriate introductory courses in Economics, Politics, and Psychology, or electives in other majors such as Art History and History. All Core Program sophomores at NYU Florence participate in field trips throughout Italy and in the high-level political, social and cultural programs held on campus.

**Fall in Washington, D.C.**

Core Program sophomores who spend their fall semester at NYU Washington, D.C. experience America’s political and cultural hub. Students take required Core Program courses, Cultural Foundations III and Social Foundations III, in a unique, paired format that completes the sequence in one semester. Students may also take appropriate introductory courses in Economics, Environmental Studies, Journalism, and Politics. Core Program sophomores at NYU Washington D.C. also have the opportunity to earn credit through an internship with one of many government, NGO, corporate, and arts organizations in the city.

**Additional Sophomore Study Abroad Opportunities**

Core Program students are permitted to study abroad at any of NYU's global academic centers for one semester of their sophomore year as long as they meet certain conditions as well as make the appropriate academic plans as outlined below.

As with other NYU students, Core students will need to participate in the regular application process through the Office of Global Programs by the appropriate deadlines. For details visit www.nyu.edu/studyaway.

In addition, requirements for transition during the junior year should be carefully mapped out with an advisor, because NYU’s global academic centers do not offer Cultural Foundations III or Social Foundations III, with the exception of NYU Washington, D.C. and NYU Florence in the fall. See “Academic Planning for Sophomore Study Abroad.”

Core Program students interested in sophomore study abroad must submit a petition for permission to:

1. Study away for a semester in the sophomore year
2. Take Cultural Foundations III and Social Foundations III in the same semester while in New York

**Academic Planning for Sophomore Study Abroad**

In addition to the freshman core curriculum (Writing I and II; Social Foundations I and II; Cultural Foundations I and II), Core Program students are expected to complete Cultural Foundations III, Social Foundations III, and at least one of their math and science requirements prior to transition to their bachelor’s degree school. However, with the exception of NYU Florence and NYU Washington, D.C., NYU global academic centers do not offer these courses. In order to study abroad at a site not offering those required courses, students must submit a petition to the LS Office of Global Programs and receive approval to take Cultural Foundations III and Social Foundations III simultaneously during
the semester when they are planning to be in New York.

Prior to submitting the petition, students should speak with their academic advisor to discuss their study abroad plans, selecting the optimal time for overseas study given major, minor, or school requirements, and which site is most appropriate given their academic, professional, and personal goals.

Completed petition forms should be submitted to the LS Office of Global Programs at 726 Broadway, 6th floor, New York, NY 10003 or by email at ls.abroad@nyu.edu. Forms are available on the LS Advising Web site.

Other Opportunities for Global Study

After transitioning from the Core Program to their bachelor's degree school, juniors and seniors may choose to study at one of many NYU global academic centers. A full list of available global academic centers and details about each can be found at www.nyu.edu/studyabroad or on page 61.

GLOBAL LIBERAL STUDIES
GLOBAL STUDY

Global Liberal Studies (GLS) students have multiple opportunities to study outside of the New York City. During the freshman year, students can choose to study in Florence, London, or Paris.* In addition, students may choose to study in Florence or Washington, D.C. during the fall of sophomore year. Finally, all GLS students spend the junior year outside of the United States, regardless of prior global study. The GLS programs abroad fit in seamlessly with the academic program at Washington Square so that course requirements are met in time for graduation in four years.

*Passports valid six months beyond the end date of the academic year will be required for LS students who wish to enroll in the freshman program at a global site. In addition, the majority of students attending the freshman year program in Europe will be required to independently secure a student visa valid for the dates of the program. Tourist visas are not acceptable for the purposes of study.

Students must be eighteen years of age on or before the date of travel to the site for the purposes of study.

Freshman Global Study

GLS students may choose to begin their program in New York or at NYU in Florence, London, or Paris. During the freshman year, all GLS students examine the world's major cultural traditions and the ways in which they are connected through six core curriculum courses (Writing I and II; Cultural Foundations I and II; Social Foundations I and II) that are offered at all the freshman global academic sites. Two additional courses will fit into the freshman year program of study and vary depending on site: for example, language classes or courses taught in the local language in Paris and Florence; content courses focusing on British history, politics, literature, culture, or economics in London. Detailed information about these and all the NYU global sites can be found at www.nyu.edu/studyabroad or on page 61.

Freshman Year in Florence

GLS students who spend their freshman year at NYU Florence participate in an intellectual and cultural community that explores the intersection of history and current affairs. Students will take required core curriculum courses in the humanities, arts, and social sciences, as well as Italian language. The academic program in Florence includes visits to many important museums and historic sites in the region.

Freshman Year in London

GLS students who spend their freshman year at NYU London pursue an academic program that integrates liberal arts education with the city's centuries-old historic landmarks and its contemporary cultural resources. Students take required core curriculum courses in the humanities, arts, and sciences.

Freshman Year in Paris

GLS students who spend their freshman year at NYU Paris engage in an immersive academic and cultural program. Students take required core curriculum courses in the humanities, arts, and social sciences, as well as French language. The academic and extracurricular programs include activities that expose students to the rich history and cultural offerings of Paris.

For more information about LS’s global programs for freshmen, visit www.nyu.edu/global/global-academic-centers/freshmen-abroad-programs/liberal-studies-freshmen-programs.html.

Sophomore Global Study

GLS students may be permitted to study away during the sophomore year. Students interested in this opportunity should consult with the LS Office of Global Programs as early as possible.

Junior Year Global Study

The junior year of required international study is a unique feature of the GLS
In their first three semesters of study, GLS students acquire a broad understanding of the interconnections between world cultures. In their fourth semester, students begin to explore the cultural context and language of the site at which they will study as juniors. The sites available in a given year are carefully selected to coordinate with every aspect of a student’s four-year course of study. Junior year global academic sites for 2014-2015 are listed below; see www.nyu.edu/studyabroad or page 61 for descriptions of each site.

- NYU Berlin
- NYU Buenos Aires
- NYU Florence
- NYU Madrid
- NYU Paris
- NYU Shanghai
- NYU Tel Aviv

The junior year abroad requires a full immersion year at the specific site. Students are expected to spend both semesters of their junior year at one site, given that the sophomore year courses and senior year course work are connected to the junior year site selected.

Junior Year Global Site Selection

The Junior Year Global Site Preference form is intended to match GLS students with the most suitable global site in the junior year based on multiple factors, from academic goals, experiential learning interests, language proficiency, senior thesis intentions, and more. This Junior Year Global Site Preference form is due to the LS Office of Global Programs at the beginning of the spring semester of the student’s freshman year. In addition to ranking their site preferences, students must also submit a brief proposal that outlines how their preferred site suits their academic, professional, and personal goals. Students may find the Study Abroad Web site (www.nyu.edu/studyabroad)—especially the Academic Courses tab on each site’s page—useful in indicating their preferences. Students will also have access to members of the GLS team for discussion about the site placement, in addition to regular information sessions, to help students make the most informed choice for global study.

Site placements are communicated to students by mid-March of the freshman year, in time for registration of classes for the fall semester. Students will be matched with the site that will best help them to achieve their educational goals and should note that their top choice(s) of site are not guaranteed (and, in fact, may not be the most appropriate site, given their goals).

Note: Transfer students admitted to GLS after the Preference Form deadline are asked to submit the form as soon as possible. Students will be matched with the most appropriate junior year site on a space available basis.

Petitions for Change of Site, Study at a non-GLS Site, or Study in New York

Students must submit the Junior Year Site Preference Form to the LS Office of Global Programs by the posted deadline at the beginning of the spring semester in the freshman year to be matched with one of the available GLS global academic centers. The matching of student to junior year site should be considered final once conveyed to the student in mid-March. However, students with outstanding academic, medical, or other issues may choose to submit a petition to study at a non-GLS site, to switch from one GLS Academic Center to another, or to spend the junior year in New York. These will be considered on a case-by-case basis.

Students are eligible to petition to stay in New York for health or wellness reasons at any time. However, switches after the initial matching are not guaranteed. In addition, students are only permitted to petition to switch from one site to another only once. A sound academic rationale for the switch must be prepared and must include intended (or completed) coursework relating to the proposed site, language proficiency, completed global study (for those students who have already spent the freshman year abroad), the proposed research and thesis, and any other information useful for the review of the petition.

GLS Requirements for Eligibility to Participate in the Junior Year Away

A required junior year away at one of NYU’s global academic centers is both a hallmark of the GLS degree and a requirement for graduation. As a condition for overseas study, students enrolled in GLS must meet certain minimum program requirements prior to studying away—as outlined below—and must maintain those requirements to be permitted to spend the full year at one of these global academic centers and graduate with the degree. Questions about program requirements for global study can be addressed to gls.abroad@nyu.edu.

Academic Requirements

In addition to completing the elementary level of language (or its equivalent) of their junior year site, students must have
earned 64 credits with a minimum 3.0 cumulative GPA prior to departure for junior year study abroad.

Students must also have successfully completed the following courses to be permitted to study overseas:

- Cultural Foundations I and II
- Social Foundations I and II
- Global Writing Seminar (or equivalent)
- Sophomore Seminar: Approaches
- Sophomore Seminar: Global Topics
- Advanced GLS elective [Advanced Writing Studio, Social Foundations III, Cultural Foundations III, or an additional Sophomore Seminar: Global Topics]

Students are not permitted to depart for the junior year abroad with an “Incomplete” on their transcript. Any student who plans on taking an incomplete in the semester prior to study away should sign an Incomplete Contract with their faculty member. Remaining work required to post a grade for the course should be received no later than August 15. In addition, students are strongly advised to have completed Global Cultures and at least one science course (or the equivalent) prior to departure for the junior year.

Students must maintain the minimum 3.0 cumulative GPA to continue for the full year at their global study site. Students must be registered as a full-time student, as well as take the following courses while abroad:

- Experiential Learning I
- Experiential Learning II (plus the linked, online, NYC-led Junior Independent Research Seminar)

- Courses in the language of the site (either content or language instruction)
- Advanced Global Cultures

During junior year, students must continue to maintain satisfactory progress toward the degree in order to spend the full year abroad.

Immigration and Travel Requirements

To be permitted to study at one of NYU’s global academic centers, students must also comply with local laws to be legally permitted to study at the site. Depending on students’ immigration status, citizenship, and junior year site of study, this generally entails securing a visa prior to departure. Students should refer to the Office of Global Programs for more information about requirements.

In addition to their responsibility for the visa (or equivalent acceptable immigration status for study at the site), students must also follow Global Programs guidelines on other requirements necessary for overseas study.

Students will be responsible for their own travel to and from the site at the beginning and end of each semester. Most of NYU’s global academic centers do not provide lodging between the fall and spring semester for students. Those students not planning on traveling between mandatory check-out and check-in dates will be responsible for their own lodging.

Disciplinary Requirements

Given its unique nature, the success of a global campus community requires that its members cultivate a significant degree of mutual respect, consideration, and concern for the well-being of others as well as, uphold a high level of personal integrity and maturity. Students whose behavior has been determined through the University student conduct process to have been disruptive to the University community and/or antithetical to these qualities may be precluded from participation in the study away experience.

Accordingly, information concerning a student’s conduct is made available to LS and the LS Office of Global Programs. Students who have been placed on University disciplinary probation or on deferred suspension from University housing are ineligible to participate in the study away program during the period of their probation and/or deferred status. Students who have been suspended, withdrawn, or dismissed from the University and those who have been dismissed or suspended from University housing are permanently ineligible to participate in the study away programs at NYU, including the required GLS junior year abroad.

In cases where a student’s disciplinary status changes due to conduct during the course of the junior year away, the student may face ineligibility to continue study at their respective global site.

University Leave Policy and Global Study

Students who have been on leave from the University must return to the New York City campus and successfully complete the spring academic semester of full-time coursework prior to study away for the GLS junior year abroad through NYU.
Courses listed are expected to be available during academic year 2014-2015 but are subject to change. Refer to page 15 for Core Program course numbers and requirements and page 18 for GLS course numbers and degree requirements.

WRITING

Writing I and II
WRI-UF 0101 and WRII-UF 0102
4 credits each

The Writing sequence advances the global emphasis of Liberal Studies by engaging students in reading, analyzing, and interpreting works throughout the English-speaking world and, in translation, beyond it; in the classroom, instructors deal with the attendant issues of geography, political and social difference, and translation. Students also produce original work based on research and the incorporation of dialogue with other writers and thinkers. The Writing sequence forms the foundation of a student’s writing career and shares important writing-intensive values with all other areas of the program.

Global Writing Seminar
GWS-UF 0101 4 credits

Introduces students to the kinds of observational, reading, research, analytic, and writing practices upon which they will depend throughout their undergraduate careers and beyond. Students work in modes from self-examination to cultural analysis that lead into the research process, helping them recognize the role of writing as a tool for exposition, exploration, synthesis, and argumentation. The course includes a variety of forms of writing to help students recognize the habits, practices, and intellectual assumptions that may limit their writing and scholarship. Emphasis on independent work of increasing sophistication in research methodologies yields a fuller understanding of the role of the essay in contemporary writing. Course materials and activities engage global issues and perspectives, with an emphasis on the potential junior year global site as one of the objects of investigation.

Advanced Writing Studio
AWS-UF 0201 4 credits

Involves advanced study and practice of writing and is intended for those who wish to develop their writing and who seek to explore and utilize writing as an important aspect of inquiry. Typically, the course will involve the study and practice of one mode or genre of writing (e.g., the screenplay, the poem, the personal essay, literary journalism, the scholarly essay, short fiction, the book or movie review, etc.—the number of genres or modes that students may practice in a single course will be at the instructor’s discretion), and the study and practice of interpretive or reflexive prose that analyzes, synthesizes and reflectively engages with the mode or genre under consideration. The class will incorporate the study of global traditions (that is, across several large geographic regions) in which the particular mode or genre is practiced and studied. All classes will involve the student in some form of collaboration (group presentations, team-teaching a text, interviewing same subject, co-authoring, etc.), and will also include some treatment of how writing in the mode under consideration and its analysis is transferable to other kinds of writing practices.

Creative Writing: Global Voices and Forms
CWGV-UF 0101 4 credits

The conversations and work in Creative Writing: Global Voices and Forms are guided by a reading list that has been constructed with an emphasis on the global writing community. Readings are drawn from the diverse international tradition of modern and contemporary writing in order to facilitate a discussion of the role national or geographic identity plays in the construction of creative works. The course considers, when appropriate, the national or geographic origin of particular forms—in fiction, for example, magical realism and its ties to Latin America, and the nouveau roman and its ties to France—and the ways those forms have migrated and influenced creative works around the globe. Students complete creative writing exercises inspired by and related to the readings and discussions of form, some of which might turn into longer works.

Creative Writing: Places
CWP-UF 0101 4 credits

This course considers place, setting, or location as central concerns of the creative writing craft. Students examine contemporary theories and poetics around issues of place, as well as consider how writers use place, geography, landscape, and nationality
to shape their creative work. Students consider how one makes places with language, how one conveys what it feels like to be in a place, and how places influence narrative.

CULTURAL FOUNDATIONS SEQUENCE

Cultural Foundations I
CFI-UF 0101 4 credits
Introduces the arts from their origins to the end of antiquity, as defined for these purposes by the roughly coincident dissipations of the Gupta, Han, and Western Roman empires, focusing on how individuals and social relations are shaped in literature and the visual, plastic, and performing arts, as well as through music. Conceptions of the divine, the heroic, power and disenfranchisement, beauty, and love are examined within the context of the art and literature of East and South Asia, the Mediterranean world, and contiguous regions (such as Germania, Nubia, and Mesopotamia). Concepts of Cultural Foundations II are introduced through the discussion of models by which cultural transmission occurred across these regions prior to the rise of Islam.

Cultural Foundations II
CFII-UF 0102 4 credits
Examines the arts produced within diverse cultural traditions across the globe from the rise of Islam at the beginning of the 7th century to the global empire building of the late 17th/early 18th centuries. The course explores the distinctive conventions and traditions of different media and the development of cultural traditions from their ancient foundations to the early modern period through successive influences and assimilations, both local and external. Diverse cultural traditions are also considered in relation to one another: by direct comparisons of works even in the absence of historical cultural contact; by consideration of mutual interactions, exchanges, and contestations; by the assertion of cultural dominance; and by resistance to such assertions.

Cultural Foundations III
CFIII-UF 0103 4 credits
Explores the arts from the late 17th/early 18th centuries to the post-World War II era, examining how they define and reflect both local cultural views and rapidly shifting global understandings of the world. The course considers how the diverse conceptions and conditions of modernity shaped and were shaped by the arts around the world. Many of the issues pertinent to the course—industrialization/urbanization; the outcomes of cross-cultural contact; colonialism, decolonization, conflicts of political ideology, and liberation struggles; fundamental redefinitions of mind, language, gender, and sexual identity—have had very different effects in various parts of the world. Instructors encourage students to explore what it means to study the arts from global perspectives and to examine what "globalization" itself has meant and means in the context of the arts.

SOCIAL FOUNDATIONS SEQUENCE

Social Foundations I
SFI-UF 0101 4 credits
Introduces students to the ancient world and ends with the dissolution of the Western Roman Empire, the Gupta Empire in India, and the Han Dynasty in China. This course takes a global perspective and uses an interdisciplinary approach, and part of its aim is to explore enduring questions such as the relation between the individual and society, between justice and power, and between humanity and the divine. The ancient societies from which the texts emerged are as much objects of study as the ancient texts themselves. Students consider many ideas with which they might not agree, and they ask how these earlier conceptions speak to their own lives and connect to the world today. Students are encouraged to distinguish between understanding a text in its historical settings and engaging in broad historical criticism. Accordingly, writing assignments strive to strike a balance between close reading and comparative assessment. In addition to drawing on seminal texts from the Mediterranean world and the Middle East, instructors give extended attention to at least one Mediterranean/non-European culture.

Social Foundations II
SFII-UF 0102 4 credits
Spans a thousand years, from the rise of Islam and the reunification of China under the Tang Dynasty (in the 7th century CE) through the Scientific Revolution and the decline of the Mogul Empire in India. Students consider great ideas that have often helped earlier peoples organize their lives—but which have also set them in conflict either with other communities or among themselves. Such ideas have sparked movements for ethical and social reform, conquest, recovery of lost classics, and religious renewal. Vast new empires appear during this period, but so do challenges to their rule. Religious conflicts lead to civil war, and modern science emerges as a challenge to traditional beliefs. Throughout, different
conceptions of human nature emerge and collide. Oppression gives rise to new movements for greater equality and individual rights, and bitter struggles for power lead to the creation of large new colonial empires, whose effects linger to the present day. In addition, the world’s different civilizations come into increasing contact through exploration and trade. Students consider these ideas and developments critically, with an eye to their philosophical, political, and historical significance; and they explore the ways in which texts that have often been read in exclusively Western contexts yield new meaning when placed in non-Western settings.

Social Foundations III
SFIII-UF 0103 4 credits
Examines major intellectual and historical events from the Enlightenment and the Qing Dynasty (around 1700) to the contemporary world, a period that features some of the most rapid and significant changes in human society and scientific understanding. At the same time, many of the enduring questions of humanity have become even more critical as disparate cultures interact in a new global arena. This course is a capstone to the Foundations sequence; accordingly, authors and themes come from a range of texts both interdisciplinary and international. Among the themes the course explores are the philosophical and political debates that followed the creation of global colonial empires, as societies from around the world confronted imperial polices and institutions. The course also considers the rise of large new international markets; the spread of revolutionary and national liberation movements in the 19th and 20th centuries; new challenges to established property; and the social
effects of industrialization. In addition, instructors discuss postmodern attempts to question and undermine the institutions and practices that structure contemporary societies. Students consider criticisms of Western practices that form both within the West and from other regions of the world, giving special attention to the reception of Western texts by other traditions and, conversely, the influence of these other traditions on the West.

GLOBAL CULTURES

African Cultures
AFGC-UF 0101 4 credits
Offers a broad interdisciplinary introduction to the great diversity of peoples, places, and cultures on the African continent. Students use a variety of historical sources, literature, and film to explore the paradigms of traditional cultures of precolonial societies and the disruptions of those structures by the incursions of Islam and European colonialism. The course also explores the decolonialization of the continent, the attendant struggles for independence, and post-liberation problems. The impact of modernity on cultural roles and the transformation of African cultures in the diaspora also receive attention.

East Asian Cultures
EAGC-UF 0101 4 credits
Offers a broad interdisciplinary introduction to China, Japan, and Korea, generally concentrating on one of these regions. Students study aspects of the traditional and/or modern cultures of one or more of these countries, such as the foundational texts of major schools of thought, as well as literary, political, philosophical, religious, and artistic works. Topics may include the roots and growth of East Asian culture, national or cultural identity in relation to imperialism and colonialism, East-West tensions, modernism’s clash with tradition, the persistence of the traditional within the modern, the East Asian diaspora, and questions of East Asian “modernities.”

Latin American Cultures
LAGC-UF 0101 4 credits
Offers a broad, interdisciplinary introduction to the diversity in the Caribbean and the Americas beyond the United States and Canada. Given the European, American, African, Asian, and indigenous Indian influences on the region’s varied cultures and societies, the course focuses on one or more of such topics as the social, political, artistic, economic, and ethnological issues of the pre-Columbian, colonial, independence, and contemporary periods. It traces both cultural communities and differences within Latin America. The course also explores Latin American ideas about the place that the region occupies in the Americas and the world.

Middle Eastern Cultures
MEGC-UF 0101 4 credits
Offers a broad interdisciplinary introduction to the societies, cultures, politics, and history of the contemporary Near East and Islamic North Africa. Sociological, historical, and political texts, as well as achievements in the fine and performing arts, films, and literary works, are employed to examine the region’s rich historical legacy and current complexity. Topics include the historical-cultural relations between the Middle East and the West; the impact of historical, economic, and political change in the region’s cultures and societies; and the contemporary state of the region.
South Asian Cultures
SAGC-UF 0101  4 credits
Offers a broad interdisciplinary introduction to the society and culture of the Indian subcontinent, concentrating on one or more of the nations of India, Pakistan, Bangladesh, Nepal, and Sri Lanka. Students study aspects of the traditional and/or modern cultures of one or more of these countries, such as the foundational texts of major schools of thought, as well as literary, political, philosophical, religious, and artistic works. The course explores the interactions of historical tradition and change and illuminates such issues as colonialism, sectarianism, and modernization.

SCIENCE

History of the Universe
HOU-UF 0101  4 credits
Students examine the nature of science as a way of looking at the world and study that world as revealed through the work of scientists over the years. They learn about the nature of matter and energy and how the universe has evolved. Topics include the origin and development of the stars, galaxies, planetary systems, and the universe itself, as well as study of the Earth and the development of life on Earth and its potential to exist elsewhere in the universe. The course begins with the development of scientific thought at multiple locations around the pre-modern world by reference to Babylonian and Chinese astronomy, Indian numerical systems, and the work of such scientists as Aristotle, Ptolemy, Al-Sufi, Copernicus, Kepler, and Galileo. It continues with discoveries by the likes of Newton, Darwin, Curie, Einstein, and Hubble during the period of Western scientific hegemony and ends with the multinational world of present-day science. Students acquire an understanding not only of modern science but also of its development and of the methods, strengths, and limitations of the scientific method.

Environmental Studies
ENSTU-UF 0101  4 credits
Students learn about modern environmental science in the context of contemporary global issues, exploring the impact that the decisions of nations and individuals have on local and world ecologies. The course emphasizes the science involved in environmental decisions while also examining the role of ethics, politics, and economics in environmental decisions at both personal and governmental levels. Students examine such topics as ecology and biodiversity, including the nature and effects of succession, evolution, and invasion species; the atmosphere, including air pollution, ozone depletion, and climate change; sources, use, and misuse of water resources; human population and feeding the world’s people, including developments in agriculture and genetic modifications of organisms; and the nature of Earth’s energy resources and their use by humankind.

Life Science
LISCI-UF 0101  4 credits
Examines fundamental principles and processes of biological science. The theme of evolution is woven throughout the course. Topics include genetics, cancer, cell biology, biochemistry, biotechnology, and bioethics, with special emphasis on the human species. Many of the topics are discussed within a social and historical context, demonstrating the global nature of scientific problems and scientific process. Selected readings from science journals, newspaper articles, and recent books expose students to the relevance and application of scientific work to their everyday lives, focusing particularly on genetic disease, the function and treatment of HIV infection, and other current important frontiers and ethical issues in the discipline. The course also acquaints students with the historical development of life science by reference to key figures from Galen to Averroës to Mendel and Darwin.

Science of Technology
SCTEC-UF 0101  4 credits
Follows the intertwined histories of science, technology, and society, focusing mainly on the technology of communication from the earliest means of communicating across space and time to present forms of communication. Students investigate the science behind the technology by engaging in inquiry-based group activities and group projects that illustrate the scientific method and the role of experimentation in producing scientific results. The course also looks at the impact technology has had on societies, and the way the structure and values of different societies have conditioned how technologies are actually used. Student research projects investigate the basic science, history, and impact of technologies in other fields such as energy, medicine, or transportation.

GLOBAL LIBERAL STUDIES
UPPER DIVISION COURSES

Sophomore Seminar: Approaches
APR-UF 0201  4 credits
Approaches seminars are concentration-specific courses that acquaint students with the most influential theories and methods that inform the study
of global issues and questions in their concentration. Emphasis falls on current thinkers, practitioners, and methods, with some reference to their immediate antecedents. These theoretical models are examined both for the ways they illuminate the interpretation of specific texts and as important texts in their own rights. Theory is contextualized by application to a small number of particular cases in the field (such as a particular legal issue or literary text).

**Sophomore Seminar: Global Topics**

GT-UF 0201  4 credits

Global Topics seminars put topics of contemporary or historical interest into a global framework. They normally draw examples from the regions in which the global academic centers are located, but their primary purpose is to study the global networks of influence and exchange that allow one to understand a specific topic across disparate places. Emphasis is placed on students encountering the global in the University’s urban setting, as well as in the classroom. The concentration designation provided for Global Topics courses is informational; students may freely choose Global Topics courses outside the concentration they plan to pursue.

**Experiential Learning I**

EXLI-UF 9301  4 credits

Comprises both classroom instruction and community experience to immerse students in the current and historical character of their junior year study abroad site. Whenever possible, students practice foreign language skills as part of this immersion. Classroom instruction provides an interdisciplinary perspective on the local, regional, national, and global forces that have shaped the character of life in the site city. The community experience (normally, an internship, volunteer opportunity, or independent study opportunity) immerses the student in the contemporary life of the city, giving an advanced introduction to the city’s local character and its intersection with global forces along four dimensions: Arts and Media, Politics, Economics, and the social practices of everyday life. The historical development of the city is diffused through each of these units, but the instructor may also choose to begin with a preamble devoted explicitly to the geographical situation and historical development of the city.

**Experiential Learning II**

EXLII-UF 9302  2 credits

A two-credit, Pass/Fail course focused primarily on a community placement each student undertakes in close conjunction with the course’s classroom component. With the guidance of the instructor, students independently reflect on and formulate concepts relating directly to their community placement. The community placement, which the student actively participates in securing with guidance from the relevant site or professional personnel, falls within the area defined by the student’s concentration and, as much as possible, relates to his or her individual academic interests.

**Junior Independent Research Seminar**

JIRS-UF 0301  2 credits

A mandatory, concentration-specific class taken online during spring of junior year. Students begin to prepare for the rigorous independent research they will conduct and present as seniors. Students use library research (including online resources) and, when relevant, their own experiences at the sites to shape their topics and inform their work. In consultation with the instructor and in active communication with other students in the course, each student creates an annotated bibliography, an essay that might serve as a draft chapter of the thesis, and a prospectus outlining a potential thesis topic growing out of the essay. (Students do not actually begin the thesis in the seminar; ideally, their work will form the basis for the thesis, but it is not required that it do so.) The seminar focuses on the methodology of writing in the disciplinary areas of the student’s concentration; the precise readings that will inform the student’s research will be determined by each student in consultation with the instructor. Under the direction of the instructor, students provide online feedback to each other at least once a week.

**Advanced Global Cultures**

AGCI-UF 9301  4 credits

Concentrates on issues that place the particular international site where the course is taught into a global context. The course typically gives students the chance to study alongside their colleagues from other NYU schools. It includes components that take full advantage of the specific site—e.g., museum trips and architectural tours, explorations of neighborhoods, lectures by or conversations with members of the community, and the like. The course illuminates aspects of the culture and history of the host country in relation to regional and local issues.

**Senior Seminars*”**

SCAI-UF 0401  4 credits each

Address a focused global topic from a broad interdisciplinary standpoint. Students independently analyze issues of global significance. The courses are interdisciplinary both in the range of primary material they address and in synthesizing and applying secondary
or theoretical sources from multiple disciplines. The work students produce for the course is similarly global in scope and interdisciplinary in approach and methods. Students develop advanced understanding of a narrowly-defined aspect of global contact, encounter, or connection. The courses are taught seminar-style, and as such, students have primary responsibility for setting the agenda of class discussion.

*An upper-level College of Arts and Science (CAS) course, including those cross-listed with the Graduate School of Arts and Science, may (with permission) be substituted for one semester of the senior capstone seminar, providing the course is required for the student to complete a second major or minor, or meets a B.A./M.A. requirement.

Senior Colloquium and Thesis
SCOI-UF 0401 4 credits (Fall) and SRTH-UF 0402 6 credits (Spring)
Constitute a full-year course that acts as the final realization of the degree's emphasis on independent inquiry from a global perspective. Students take a concentration-specific course associated with the senior thesis in each semester: Senior Colloquium in the fall and Senior Thesis in the spring, when the final draft of the thesis is submitted and reviewed by its first reader (the instructor of the Colloquium/Thesis course) and a second reader who provides additional expertise in the thesis topic. Each section of the course unites students in the same concentration who have spent their junior year at various locations; thus, students gain a global perspective on their topics by drawing on the experience of their peers. The course offers grounding in the theoretical texts relevant to advanced work in the concentration, close guidance in the actual composition of the thesis, and practice in the oral presentation of complex ideas.

The thesis normally runs approximately 40-50 pages (or the equivalent in a different medium) and concerns a topic related to the student's junior year international study experience and a global issue of contemporary importance in the student's concentration.

GLS ELECTIVES

Introduction to Global Studies
INTGS-UF 0101 4 credits
Introduces some of the most influential thinkers and key concepts of Global Studies, the multi-disciplinary academic study of globalization. In its least contentious sense, “globalization” refers to the rapidly developing and ever-deepening network of interconnections and Interdependencies that characterize contemporary life. What is hotly debated in Global Studies is less the empirical reality of globalization than its drivers, outcomes, and historical origins. Is globalization essentially an economic process or set of processes that has political and cultural implications, or a multi-dimensional set of processes for which no single social domain holds causal priority? Is “globalization” simply another word for “Westernization,” “Americanization,” or capitalism and its attendant ideologies? Did globalization begin in the last quarter century or several centuries ago or even several millennia? This course will examine answers made to these questions by such thinkers as Immanuel Wallerstein, Anthony Giddens, Arjun Appaduria, Roland Robertson, Joseph Stiglitz, John Tomlinson, and Jan Nederveen Pieterse, and introduce such key concepts as World-Systems Analysis, Neoliberalism, Cosmopolitanism, Postnationalism, Deterriorialization, Glocalization, and Hybridity.

Topics in the Humanities
ELEC-UF 0101 4 credits
Elective courses that concern any one of a broad range of topics, with a special emphasis on connecting coursework with experiences in the city. Recent topics have included Studies in Peace and Conflict, and Self-Fashioning in Print and Visual Cultures. Some electives may provide training in uses of multimedia tools and take the form of a studio course. Electives, by definition, do not meet any degree requirement in LS, but do count as credits toward graduation.

ECONOMICS

Principles of Macroeconomics
ECI-UF 0101 4 credits
Introduces basic concepts of macroeconomic theory. Topics include unemployment, inflation, aggregate demand, income determination and stabilization policies, fiscal and monetary policies, and the Keynesian monetarist debate over stabilization policy. Not a prerequisite of Principles of Microeconomics. Equivalent to Introduction to Macroeconomics (ECON-UA 1) in CAS.

Principles of Microeconomics
ECII-UF 0102 4 credits
Introduces basic concepts of microeconomic theory by examining price theory and its applications. Topics include consumer demand and choice, indifference curve analysis, big business and public policy, and factor markets and the distribution of income. Not a prerequisite of Principles of Macroeconomics. Equivalent to
Introduction to Microeconomics (ECON-UA 2) in CAS.

**INTERNSHIPS**

Students do not need permission from LS to take paid internships. Following are guidelines for internships for credit. Only LS students who have completed the first semester of freshman year may receive academic credit for internships by taking the Internship Seminar.

**Internship Seminar**

INT-UF 0201  1-4 credits

The goal of the Pass/Fail Internship Seminar, which meets weekly for variable credit, is to guide students in developing an academic project that relates to the experience they are having in an approved internship outside the classroom. Students read texts devoted to the intellectual analysis of the working world, share their internship experiences with their peers, and write regular reports on their experience.

They complete a substantial final project whose precise nature is to be determined in consultation with the faculty director and submitted by the end of the term. The faculty director provides written comment on the work; students must pass all elements of the course in order to receive a passing grade.

Students must submit internship application forms through LS Advising; the internship must be approved by the course instructor for a student to be given permission to register for the seminar. Acceptable internships:

- Must be located in New York City
- May include governmental, corporate, or nonprofit organizations
- Will be structured as an apprenticeship (that is, skills and responsibilities graduate over the course of the internship)
- May incorporate a research component
- Provide opportunities to use academic skills (e.g., writing, analysis, computer literacy, public speaking)
- Require a variety of work assignments
- Include progressively challenging tasks/assignments
- Engage the intern in a culture of teamwork and collaboration
- Encourage autonomous decision-making and production
- Give opportunities for synthesizing knowledge and information

As part of the intensive LS liberal arts curriculum, it is important that internships situate the student in an interdisciplinary, challenging, and flexible environment. During the course of the internships, students should develop their communication abilities, knowledge of the field, and analytical and critical thinking. Ideally, internships will train students in a variety of methodologies and promote self-confidence as the student moves forward. Internships should also familiarize students with ethical procedures and restrictions within the organization.

Internships characterized by the following are not acceptable within LS criteria:

- Do not provide for frequent contact between intern and supervisors/colleagues
- Limit intern's work to a narrow and repetitive activity
- Restrict the exercise of independent judgment
- Do not articulate clear objectives and methods for internship training
- Have unrealistic expectations for the student’s performance and outcomes

The honors and awards available for 2014-2015 are listed below. The award programs may vary from year to year. Visit www.ls.nyu.edu for current honors and awards programs.

DEAN'S CIRCLE
Students who complete the freshman year having earned at least 30 credit hours are eligible to apply for the Dean's Circle University Scholars program, the honor society of Liberal Studies (LS). Additional requirements may apply. Dean's Circle scholars receive an award from the University to participate in a range of activities with faculty, including visits to cultural events and an academic travel experience. Members are also expected to engage in community service and to work over the course of the year on a major research project on a topic related to Dean's Circle travel. In recent years, the Dean's Circle scholars have traveled to the Czech Republic, England, France, Germany, and Spain. Dean's Circle members who are Core Program students also receive favorable consideration for the University Scholars program in the school in which they enroll as juniors.

DEAN'S LIST
At the end of each academic year, a Dean's Honors List is compiled. This is an honor roll of matriculated students who have achieved an average of 3.65 or higher for that academic year (September-May) in at least 28 graded credits. In order to be listed, a student must not have any grades of Incomplete or N at the time the list is compiled. Grade point averages are not rounded off.

ELAINE KUNTZ MEMORIAL WRITING PRIZE
The Elaine Kuntz Memorial Writing Prize was established in 1988 in memory of Dr. Kuntz, who was the program's first associate director and a member of the faculty. The prize is awarded to an LS freshman each year for an outstanding essay produced in a writing course. The writing faculty nominates students for this prize.

GUEN SCHOLARSHIP (GLOBAL LIBERAL STUDIES ONLY)
Global Liberal Studies (GLS) sophomores are eligible to apply for a limited number of Guen Scholarships, which provide additional financial aid to GLS students spending their junior year abroad. The scholarships have been funded through the generosity of the Guen family in the interest of assisting students in international study. Ten scholarships of $5,000 for the year will be awarded based on a combination of merit and financial need. GLS students may apply at the end of the sophomore year. Scholarships will be applied to tuition charges for the junior year. The award is for one year only and is not renewable.

LATIN HONORS (GLOBAL LIBERAL STUDIES ONLY)
To graduate with Latin honors, a student must have completed at least 64 credits in the GLS B.A. in courses in which the letter grades A through D were received. All graded courses taken while enrolled in GLS, including courses taken from other divisions of the University, will be used in computing the honors average. Pass grades are not counted, and grades received in courses taken at other institutions are also not included. The student must also have a satisfactory record of conduct. Latin honors will be determined on the basis of cumulative GPA so that summa cum laude is limited to the top 5 percent of the graduating class, magna cum laude to the next 10 percent of the graduating class, and cum laude to the next 15 percent of the graduating class.
MICHAEL L. PROBST
SCHOLARSHIPS

The Michael L. Probst Scholarships were endowed by a distinguished former NYU administrator. The awards are based solely on merit and are open to LS students at the end of the freshman year. Students do not need to be eligible for financial aid to receive the award. Scholarships will be applied to tuition charges for the sophomore year. The awards are for one year only and are not renewable. To be eligible to apply, students must have a cumulative NYU GPA of 3.75 or better with no outstanding incomplete grades, must have earned at least 32 credit hours in LS, must not have been subject to any disciplinary sanctions, and must enroll full time for the fall semester. Eligible students must submit an application that includes an essay and a letter of support from an LS faculty member.
The following policies apply to Liberal Studies students enrolled in either the Core Program or Global Liberal Studies (GLS), unless otherwise indicated.

**COURSE REGISTRATION**

Online Course Registration (Albert)

Albert is the NYU student information services Web site. Students can use Albert to register for courses, change addresses, and review transcripts and financial aid information. Albert can be accessed via NYUHome at www.home.nyu.edu.

Change of Schedule

Students may access Albert online to adjust their schedule by dropping and adding courses until the end of the second week of classes; all schedule changes made after the third week of the semester must be approved by the LS Advising Center. Ultimately, the courses that students sign up for are their responsibility. When not certain about changes they want to make, students should check with the LS Advising Center. Students may withdraw from a course up until the ninth week of the semester. Courses dropped during the first three weeks of classes will not appear on the transcript. After the third week of classes, students can no longer add a course, and a W (“Withdrawal”) will be recorded on their transcript if they withdraw from a course. This grade will not be included in the calculation of their grade point average.

Note: LS students are strongly cautioned that they should not add courses or change sections of courses after the second week of the semester. Students who wish to add a course in the third week must secure permission from the instructor in advance. Students who add a course or change a section at any time are fully responsible for all work previously assigned.

After the ninth week of classes, students can withdraw from a course only in case of severe emergency. Late withdrawals must be approved by Associate Dean of Students. Undergraduates are not allowed to completely withdraw from all courses through Albert. For complete withdrawal, students must see a member of the LS advising staff.

**Refunds For Withdrawals**

Each semester, the Office of the Bursar establishes a refund schedule that applies to withdrawals. The first calendar week consists of the first seven calendar days beginning with the official opening date of the term. Students who receive financial aid should consult the Office of Financial Aid immediately if they register for, or drop to, fewer credits than they indicated they would take on the application for financial aid. A change in enrollment status may affect the financial aid students receive. It may also affect their financial obligation to the University by making them immediately responsible for any charges incurred up to the point of withdrawal. A change in enrollment status may affect the financial aid students receive. It may also affect their financial obligation to the University by making them immediately responsible for any charges incurred up to the point of withdrawal. The refund schedule is not applicable to students whose registration remains in the flat-fee range (12-18 credits).

The refund schedule is based on the total applicable tuition, excluding nonrefundable fees and deposits. Students who are due a refund can expedite the process by going to the Office of the Bursar at 25 West Fourth Street and filing a refund request form.

For more information about NYU tuition policies, contact the Office of the Bursar: www.nyu.edu/bursar.

**Auditing a Course**

Students may audit a designated course with the consent of the LS Associate Dean for Academic Advising and the permission of the instructor. Auditors may not preempt space required for registered students. Audited courses will not appear on students’ official transcript, nor will credit or a grade be awarded. Students should not audit courses required by their curriculum. Audited courses will not be considered to satisfy prerequisite requirements for advanced courses. Auditors are allowed to attend classes but not to participate in other ways. Auditors may not submit papers or take exams. Students who wish to audit should fill out the approval form no later than the first day on which the class meets. Forms are available in the LS Advising Center.

**GRADES**

To receive a final grade for a course, a student must be in regular attendance and satisfactorily complete all examinations and other assignments prescribed by the instructor. A student
will not receive a grade for any course for which she or he is not officially registered.

Students who request faculty to review the calculation of a final grade must do so within one month after the course ends. The review must normally be completed within one month but may be extended in the case of a formal grade appeal to the Associate Dean for Academic Affairs.

The following grades are awarded and are computed in the grade point average: A, A-, B+, B, B-, C+, C, C-, D+, D, and F. In general, A indicates excellent work; B indicates good work; C indicates satisfactory work; D indicates passable work and is the lowest passing grade; and F indicates failure. The weights assigned to the grades in computing the grade point average are as follows:

- A = 4.0
- A- = 3.7
- B+ = 3.3
- B = 3.0
- B- = 2.7
- C+ = 2.3
- C = 2.0
- C- = 1.7
- D+ = 1.3
- D = 1.0
- F = 0.0

**Computing the Grade Point Average**

The grade point average (GPA) can be obtained by determining the total of all grade points earned and dividing that figure by the total number of credits completed. For example, if an LS student has completed an 18-credit schedule and receives grades of A, A-, B, B-, C+, C, C-, D+, D, and F, the total grade points (58.6) is divided by the number of credits earned (18) to obtain the GPA (3.255). Note: There are no A+, D-, or F+ grades. See “Pass/Fail Option,” below, for information about pass/fail policies, including those that apply specifically to LS students.

**I Grade**

The grade of I (“Incomplete”) is a temporary grade that indicates that the student has, for good reason, not completed all of the course work but that there is the possibility that the student will eventually pass the course when all of the requirements have been completed. A student must ask the instructor for a grade of I, present documented evidence of illness or the equivalent, and clarify the remaining course requirements with the instructor. The incomplete grade is not awarded automatically. It is not used when there is no possibility that the student will eventually pass the course. In general, students have one semester to finish the work for a course in which an incomplete grade was received. If the course work is not completed after the statutory time for making up incompletes has elapsed, the temporary grade of I shall become an F and will be computed in the student's grade point average.

**W Grade**

The grade of W (“Withdrawal”) indicates an official withdrawal from a course.

**Pass/Fail Option**

Applies to both the Core Program and GLS students: Students may elect no more than one pass/fail option each term, including the summer sessions, for a total of no more than 16 credits while they are degree candidates in LS. The pass/fail option is not available for courses completed at other institutions. The pass/fail option is not permitted for any required course.

The choice to elect pass/fail grading in any course must be made before the completion of the ninth week of the term (or the third week of a six-week summer session); after that time, the grading option cannot be changed. Note that once elected, the choice of pass/fail grading cannot be changed back to the letter grade option. No grade other than P or F will be recorded for students choosing the pass/fail option. P includes all passing grades and is not counted in the grade point average. F is counted in the grade point average.

The form for declaring the pass/fail option may be obtained in the LS Advising Center.

Note: Core Program students should note that in other schools of NYU, the pass/fail option generally is not permitted for any Core Academic Plan courses, for any degree requirements, for courses in the major and the minor, or for required preprofessional courses. Students who change majors may not be able to use courses taken under the pass/fail option to satisfy requirements of the new major. Students contemplating the pass/fail option should consult with a LS professional staff advisor about the likely effect of such grades on their academic and career plans.

**Grade Appeals**

Students who have complaints about grades or other academic matters should attempt in the first instance to resolve them by contacting the instructor of the course and speaking to the Associate Dean of Students before the end of the term, who may attempt to bring about
an informal resolution. If the matter cannot be resolved in this way, students may file a petition in writing setting forth the basis for the appeal with the Associate Dean for Academic Affairs; such a petition must be filed no later than 30 days after the final grade for the course has been posted. Petitions should be filed at: Liberal Studies, 726 Broadway, 6th Floor, Room 676, New York, NY 10003. Petitions will be heard by the Committee on Academic Standards. The committee will deliver its recommendation to the Dean of Liberal Studies within 30 days of the petition’s submission. Students, responsible faculty, and administrators shall preserve the confidentiality of any student’s grade appeal.

ACADEMIC SUPPORT SERVICES
Students who seek academic support services may contact any of the following resources:

• The Academic Resource Center (ARC), a resource for academic support, is located at 18 Washington Place. ARC includes cross-school advising services to help students navigate beyond the offerings of their own schools when exploring courses, areas of study, minors, graduate degrees, and more. Visit www.nyu.edu/arc.

• The University Learning Center (ULC) offers academic support workshops, group review sessions, and peer tutoring. The ULC has multiple locations. Visit www.nyu.edu/ulc.

• The Writing Center, part of the Expository Writing Program at the College of Arts and Science (CAS), offers tutorial help in writing for the University community. The center is located at 411 Lafayette Street, 4th Floor. Visit www.nyu.edu/cas/ewp/html/writing_center.html.

• Math tutoring is available through the University Learning Center and also at the College of Arts and Science Department of Mathematics, in the Courant Institute of Mathematical Sciences. Visit www.math.nyu.edu.

CREDIT

Advanced Standing Credits
Advanced standing credits are college credits earned before entering NYU. Examples of advanced standing credits are credits earned at other colleges and universities before admission to NYU in which the grades earned were B or better, and for which scores of 4 or 5 were obtained on the Advanced Placement (AP) examinations, International Baccalaureate (IB), French Baccalaureate, Advanced Level (“A-Level”), Abitur, and some other foreign maturity examination credits may also result in advanced standing credit. Some courses taken at other colleges may not be honored by NYU.

LS accepts a maximum of 32 credits of advanced standing.* While GLS accepts up to 32 advanced standing credits, the structure of the program does not typically allow for early graduation. The work reflected by advanced standing credits will not substitute for any of the required courses in the Core Program or in GLS. The only requirements that advanced standing credits may satisfy for the Core Program and GLS are mathematics and science. Please see “Advanced Placement Credit and Global Liberal Studies Requirements” below for more information.

Advanced standing credits must be submitted to the NYU Undergraduate Admissions Processing Center and are only then evaluated by the LS Advising Center. Students should request that official AP scores, college transcripts, and other documentation be sent to the NYU Office of Undergraduate Admissions, New York University, 665 Broadway, 11th Floor, New York, NY 10012-2339. AP scores may also be sent electronically through www.collegeboard.com/student.

Students should also note that the various undergraduate schools and colleges of NYU have different policies on whether AP or other advanced standing credit will be accepted in fulfillment of major and other requirements. Students should consult with the LS Advising Center about advanced standing credits and how they will be counted.

For detailed and up-to-date information on AP, IB, and A-Level equivalences, please refer to the CAS bulletin: www.cas.nyu.edu.

*Students should consult the web sites and bulletins of other NYU schools and colleges for specific residency requirements.

Advanced Placement Credit and Global Liberal Studies Requirements
GLS participates in the Advanced Placement (AP) Program of the College Entrance Examination Board. GLS students who present AP test scores with the appropriate grade (usually 4 or 5) may receive college credit toward the bachelor’s degree. Students who receive AP credit may not take the corresponding NYU course for credit.
If they do so, they will lose the AP credit. Science is the only GLS degree requirement that AP credit may satisfy. AP credit in Biology, Chemistry, or Physics B may be used to substitute for Natural Science I and II. AP credit in Environmental Science may be used to substitute for Natural Science II (as opposed to Natural Science I for Core Program students).

Note that the AP equivalencies listed below are for students in GLS only. Students who declare certain cross-school minors should consult the LS Advising Center about credits that may or may not apply to particular minors or that may satisfy certain departmental prerequisites. The Core Requirement will be satisfied with a score of 4 or 5 on the AP examination listed.

Independent Study

In special circumstances (such as when a student is working on a preapproved research paper with a faculty member), a student may be able to take an independent study course. Independent study proposals must be sponsored by a full-time LS faculty member and approved by the Associate Dean for Academic Affairs.

Summer Session/Winter Session

NYU Summer Session serves more than 10,000 NYU and visiting graduate, undergraduate, professional, non-credit, and high school students at NYU campuses around the world. Programs include the NYU Pre-College program, Summer Study Abroad, and Summer in Greenwich Village. Over 1,000 courses covering introductory to advanced materials enable graduate and undergraduate students to enrich and deepen their educational experience, add additional minors, complete requirements, and explore new areas of study.

NYU Winter Session, a three-week session that runs before the spring semester, offers courses at NYU Washington Square as well as at selected NYU global locations.

NYU does not normally accept summer school transfer credits taken at another university. In rare circumstances, and only with prior approval, students may take such summer courses. Students who wish to apply for approval must do so by filing a petition (forms are available at the LS Advising Center) no later than the first of May preceding the summer in which work is to be taken. No late applications are considered. Students are also advised that courses taken during the summer at other universities may not fulfill requirements toward degrees and majors in the other undergraduate schools and colleges of NYU. LS students who wish to have summer work at another university substitute for courses or requirements at NYU will require approval from the appropriate NYU school or college, as well as from the LS department. To receive NYU credit once permission is granted, a student must earn a grade of B or better and then arrange for all official transcripts and scores to be forwarded to the LS Advising Center, New York University, 726 Broadway, 6th Floor, New York, NY, 10003, and to the Undergraduate Admissions Processing Center, New York University, 665 Broadway, 11th Floor, New York, NY 10012.

ATTENDANCE

Although the administration does not supervise attendance of classes, it supports the standards imposed by instructors. Students who, in the judgment of the instructor, have not substantially met the requirements of the course or who have been excessively absent may be considered to have withdrawn unofficially and may be given a final grade of F. See “Grades” on page 40.

Final Examinations

Students are required to be present for all scheduled examinations. Makeup examinations are at the discretion of an instructor. The semester calendar indicates a week at the end of each semester during which examinations are to be given. The syllabus for each course should indicate the date of the final examination; if a syllabus does not indicate the date of the final examination, this should be brought to the attention of the Associate Dean for Academic Affairs. Students should make their holiday travel plans with scheduled examination dates in mind. Early departure from New York at the end of
a semester is no excuse for missing an examination, nor should students expect that instructors will change the date of the examination to accommodate their travel plans.

Religious Policies

New York University, as a nonsectarian institution, adheres to the general policy of including in its official calendar only certain legal holidays. However, it has also long been University policy that members of any religious group may, without penalty, absent themselves from classes when compliance with their religious obligations requires it. In 1988, the University Senate affirmed this policy and passed a resolution that elaborated on it as follows:

1. Students who anticipate being absent because of any religious observance should, whenever possible, notify faculty in advance of such anticipated absence.

2. Whenever feasible, examinations and assignment deadlines should not be scheduled on religious holidays. Any student absent from class because of religious beliefs shall not be penalized for any class, examination, or assignment deadline missed on that day or days.

3. If examinations or assignment deadlines are scheduled, any student who is unable to attend class because of religious beliefs shall be given the opportunity to make up that day or days.

4. No adverse or prejudicial effects shall result to any student who avails him/herself of the above provisions.

Leave of Absence

Students who wish to take a semester off must obtain an official leave of absence from the Assistant Director of Students before the beginning of the semester. Those who do not obtain an official leave of absence must apply for readmission. A leave may be requested for one semester or for the entire academic year. Leave of absence applications may be obtained from, and should be submitted to, the LS Office of Student Affairs, 726 Broadway, 6th Floor, Room 608, New York, NY 10003. Students may apply for a medical leave of absence at any time. This will be granted upon the recommendation of a physician or therapist, the NYU Student Health Center, or the NYU Counseling and Behavioral Health Services office.

Program changes may also be requested based on medical conditions. Students who leave for medical or psychological reasons will be required to show medical documentation stating that the student is able physically and/or emotionally to continue school. In addition, students who take a leave of absence for psychological reasons must be evaluated by NYU's Counseling and Behavioral Health Services office before returning to school.

ACADEMIC STANDARDS

Academic Integrity

In the process of learning, students acquire ideas from many sources and exchange ideas and opinions with classmates, professors, and others. This occurs in reading, writing, and discussion. Students are expected—often required—to build their own work on that of other people, just as professional researchers and writers do. Giving credit to someone whose work has helped one is courteous and honest. Plagiarism, on the other hand, is a form of fraud. Proper acknowledgment marks the difference.

A hallmark of the educated student is the ability to acknowledge information derived from others. The LS community expects that a student will be scrupulous in crediting those sources that have contributed to the development of his or her ideas. In particular, it is the responsibility of the student to learn the proper forms of citation. Refer to the LS “Academic Integrity Guide” posted on the Liberal Studies Web site at www.ls.nyu.edu.

Plagiarism is presenting someone else's work as though it were one's own. More specifically, plagiarism is to present as one's own a sequence of words quoted without quotation marks from another writer, a paraphrased passage from another writer’s work, or facts or ideas gathered, organized, and reported by someone else, orally and/or in writing. Since plagiarism is a matter of fact, not of the student's intention, it is crucial that acknowledgment of the sources be accurate and complete. Even where there is no conscious intention to deceive, the failure to make appropriate acknowledgment constitutes plagiarism. Penalties for plagiarism range from a failing grade for a paper or a course to dismissal from the University.

When an instructor finds that a student has violated the policy on academic integrity, the instructor will impose an appropriate sanction and also notify the Associate Dean for Academic Affairs. Sanctions may range from a failing grade for the assignment to a failing grade for the course. The record of the
finding will be kept on file while the student is in LS.

In the event of a second violation of the policy, the matter will be referred to the Committee on Academic Standards. The committee treats all such violations seriously, and they may result in the imposition of sanctions such as academic probation, suspension, or expulsion. Decisions of the committee may be appealed to the Dean of Liberal Studies.

**Academic Progress**

The Committee on Academic Progress monitors the academic performance of students and places students on academic warning and academic probation. It also makes recommendations on terminating students who have not made sufficient progress. Its decisions may be appealed to the Associate Dean of Students.

Students are expected to progress toward the degree and to remain in good standing. Good standing is defined as maintaining a semester and cumulative GPA of 2.0 or above.

Students whose GPA falls below 2.0 in any semester will be placed on academic probation. Normally, these students will be expected to raise their GPA above 2.0 in the following semester or they will either be placed on terminal probation or dismissed from NYU. Students on terminal probation who do not make academic progress as stipulated in their notice of probation will be dismissed.

Students who receive a notice of academic dismissal after they have registered for the next semester are required to discontinue attendance and will receive a full refund of their current semester tuition.

Students who wish to contest their academic dismissal must appeal, in writing, to the Associate Dean of Students within 20 days of the notification of academic dismissal. After a review of the appeal, a decision will be rendered in writing.

Note: Students receiving federal or state financial aid or other forms of external financial aid are required to make “satisfactory progress.” It is the responsibility of the student to determine what effect any academic action taken against him or her may have on the student’s financial aid entitlements.

Note: Students receiving financial aid should note that the University’s Office of Financial Aid defines “satisfactory progress” for full-time students as maintaining a grade point average of 2.0 or better and completing 32 credit hours per year (exclusive of summer sessions).

Such progress is essential for students to remain eligible for student aid. Therefore, while I and W grades are not computed in a student’s grade point average, they will affect the student’s eligibility for financial aid. Students who have any questions about this can call the Office of Financial Aid at 212-998-4444 to determine if their financial aid is in jeopardy.

**Student Conduct and Discipline**

Students are expected to familiarize themselves and to comply with the rules of conduct, academic regulations, and established practices of the University and LS. NYU Student Community Standards can be found at www.nyu.edu/life/student-life/student-communitystandards.html.

The following are examples of the offenses for which students may be subject to disciplinary action (please note, this list is not exhaustive): cheating, plagiarism, or forgery of academic documents or form of identification; deliberate destruction, theft, or unauthorized use of laboratory data, research materials, computer resources, or University property; disruption of an academic event, program, or class; actual or threatened violence or harassment; use, possession, or storage of any weapon, dangerous chemicals, fireworks, or explosives; hazing; and violations of any local, state, and federal laws.

Complaints alleging a violation of this policy and other University policies will be reviewed and adjudicated by LS (in intra-school cases) or by the NYU Office of Community Standards and Compliance (in inter-school cases). If a complaint involves a claim of sexual harassment, sexual violence or sexual assault, Liberal Studies will follow the University’s standard procedures for responding to such incidents as outlined in NYU’s Sexual Misconduct, Relationship Violence, and Stalking Policy.

Students who violate Code of Conduct policies may be subject to disciplinary charges by the University Office of Community Standards (refer to the Office of Community Standards’ University Disciplinary Policies and Procedures at www.nyu.edu/about/policies-guidelines-compliance/policies-and-guidelines/disciplinary-policies-and-procedures.html).

A member of the faculty, administration, staff, or any student may file a complaint against any student for a student offense with the Dean of the school in which the student is enrolled. Although a
complaint may be filed at any time, it is strongly preferred that the complaint be submitted as soon as possible after the reporter/complainant became aware of the matter. A complaint should include a description of the incident giving rise to the complaint, the identity of the accused student(s), and the names of others who may have been present, observed the incident, or who otherwise have information related to the matter. Complaints should be filed in writing to the Associate Dean of Students in Liberal Studies, 726 Broadway, 6th Floor, New York, NY, 10003.

The LS Committee on Student Discipline (composed of members of the LS administration) will review the complaint and begin a prompt investigation. The Committee will also notify the student(s) named in the complaint or report of the filing of the complaint/report and request to meet with those individuals. During the respective meetings/discussions, the students (Complainant and Accused) shall be informed of their rights and responsibilities within the student conduct process, be apprised of the University’s related procedures, and asked to discuss the incident giving rise to the report/complaint. Written notice of a filing of a formal complaint shall be given to the accused student.

The committee may impose the following sanctions:

1. Warning: Notice to the student, in writing, that continuation or repetition of the conduct found wrongful, or participation in similar conduct, within a period of time stated in the warning, shall be cause for disciplinary action.

2. Censure: Written reprimand for violation of specified regulation, including the possibility of more severe disciplinary sanction in the event of conviction for the violation of a school regulation within a period of time stated in the letter of reprimand.

3. Disciplinary Probation: Exclusion from participation in privileges or extracurricular school activities as set forth in the notice of disciplinary probation for a specified period of time.

4. Restitution: Reimbursement for damage to or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages.

5. Suspension: Exclusion from classes and other privileges or extracurricular activities as set forth in the notice of suspension for a definite period of time. Students may not make academic progress at another institution and then transfer those credits back to NYU during the term of suspension. A student who has been suspended and who is not found to be responsible for the violation of school policy shall be allowed full opportunity to make up whatever work was missed due to the suspension.

7. Dismissal: Termination of student status for an indefinite period. The conditions for readmission, if any are permitted, shall be stated by the panel in order of dismissal.

Both the Complainant and the Accused student will be notified in writing of the outcome of the complaint. Decisions of the Committee may be appealed to the dean. No record of the disciplinary proceeding will be entered in the student’s file unless a final disciplinary sanction is found to be warranted.

TRANSCRIPT REQUESTS

Official copies of a student’s University transcript can be requested when a stamped and sealed copy of the academic record is required. There is currently no charge for paper transcripts. There is no limit to the number of official transcripts that can be issued to a student. Transcripts cannot be produced for anyone whose record has been put on hold for an outstanding University obligation.

Students who attended NYU after 2001 and are able to access Albert, NYU’s web-based registration and information system, have the option of requesting an official paper or electronic transcript from the Albert Student Center. Albert can be accessed via NYUHome at www.home.nyu.edu.

Students are able also to access their grades at the end of each semester via Albert.

Former Students Unable To Access NYUHome/Albert

Former students who no longer have a valid NetID and are thus unable to access NYUHome/Albert, or who attended New York University prior to 1990, must complete the Online Transcript Request Form on www.nyu.edu/registrar and mail, fax, or email the signature page to the Office of the Registrar. E-mail confirmation will be sent when the Office of the Registrar has received the signed request form.
Alternatively, former students unable to access NYUHome/Albert may fax
or mail a written letter requesting the transcript. A signed consent form is
required. The fax number is 212-995-4154; the mailing address is New York
University, Office of the Registrar, Academic Records, P.O. Box 910, New
York, NY 10276-0910.

A request letter must include all of the following information:

- University ID number
- Current name and any other name under which NYU was attended
- Current address
- Date of birth
- School of the University attended
- Dates of attendance
- Date of graduation
- Full name & address of the person or institution to which the
  transcript is to be sent

Requests may indicate transcripts should be forwarded to the requester’s
home address, but the name and address of each institution is still required.
The Office of the Registrar should be notified immediately of any change of
address and may be contacted with any questions or concerns at 212-998-4280.

ENROLLMENT VERIFICATION

Enrollment Verification provides details on whether a student is/was enrolled
full-time, half-time or less than half-time for the current semester or for
all of the semesters that the student is/was enrolled at NYU. Enrollment
certifications are frequently needed to verify eligibility for health insurance
coverage, certain types of financial aid, and for other services that are available
to individuals enrolled in colleges and universities.

New York University has multiple procedures for obtaining enrollment
verification documents. NYU students can obtain verification directly from
the Office of the University Registrar, while third party verifications should be
requested through the National Student Clearinghouse. For more information,
see the Office of the Registrar Web site: www.nyu.edu/registrar.

Please note, an individual who is not an NYU student or alumnus must follow
the instructions outlined in the third-party request procedure.

Student Request Procedure

Students can view/print their own enrollment certification directly from
Albert using the integrated National Student Clearinghouse student portal.
This feature can be accessed from the “Enrollment Certification” link on the
Albert homepage.

Eligible students are also able to view/print a Good Student Discount
Certificate, which can be mailed to an auto insurer or any other company
that requests proof of status as a good student (based on the cumulative GPA).
This feature is available for students in all schools except School of Law.

Requests for verification of enrollment or graduation may be made by
submitting a signed letter with the following information:

- University ID number
- Current name and any name under which you attended NYU
- Current address
- Date of birth
- School of the University attended
- Dates of attendance
- Date of graduation
- Full name & address of the person or institution to which the
  enrollment verification is to be sent

Requests must be addressed to:
Office of the University Registrar
Enrollment Verification and
Graduation
P.O. Box 910
New York, NY 10276-0910

Or, signed requests may be faxed to
212-995-4154. Allow seven business
days from the time the Office of
the University Registrar is in receipt
of request. To confirm receipt of a
request, please contact the Office of the
University Registrar at 212-998-4280.

Third-Party Request Procedure

To verify enrollment of a New York
University student/alumnus, use the
EnrollmentVerify service available from
the National Student Clearinghouse. Visit www.studentclearinghouse.org.
Degree verification is also available from
the National Student Clearinghouse.

Please note that there is a fee for
all services that are provided by the
National Student Clearinghouse.

Arrears Policy

The University reserves the right to
deny registration and withhold all
information regarding the record of any
student who is in arrears in the payment
of tuition, fees, loans, or other charges
(including charges for housing, dining,
or other activities or services) for as long
as any arrears remain.
Diploma Arrears Policy

Diplomas of students in arrears will be held until their financial obligations to the University are fulfilled and they have been cleared by the Bursar. Graduates with a diploma hold may contact the Office of the Bursar at 212-998-2806 to clear arrears or to discuss their financial status at the University.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) establishes requirements for the protection of the privacy of students. FERPA and its attendant regulations govern the release of information from student educational records, provide for student access to their records, and establish a means for students to request the amendment of records that they believe are inaccurate, misleading, or otherwise in violation of their rights of privacy. New York University’s “Guidelines for Compliance with the Family Educational Rights and Privacy Act” summarizes the rights of the University’s students under FERPA and its attendant regulations, as well as the corresponding obligations of the University, and may be viewed at www.nyu.edu/apr/ferpa.htm.

Disclosure: Generally, personally identifiable information regarding a student cannot be disclosed without his or her written consent, although there are exceptions to this rule, which are explained in the Guidelines. Information is personally identifiable if it would make a student’s identity easily traceable. This includes the student’s name, address, Social Security number or other such identifying number, photograph, or parent’s name and/or address.

Education Records Covered Under FERPA: The Guidelines describe those education records that are covered by FERPA and that are available for student review. “Education records” refers to any record or document containing information directly related to a student and is not limited to a file with the student’s name on it.

Student Access: Requests by students for access to their education records should be referred to Assistant Provost for Academic Program Review Barnett W. Hamberger at 212-998-2310 or ferpa@nyu.edu.

VETERANS BENEFITS

Various Department of Veterans Affairs programs provide educational benefits for spouses, sons, and daughters of deceased or permanently disabled veterans as well as for veterans and in-service personnel, subject to certain restrictions. Under most programs, the student pays tuition and fees at the time of registration but will receive a monthly allowance from Veterans Affairs.

Veterans with service-connected disabilities may be qualified for educational benefits under Chapter 31. Applicants for this program are required to submit to the Department of Veterans Affairs a letter of acceptance from the college they wish to attend. On meeting the requirements for the Department of Veterans Affairs, the applicant will be given an Authorization for Education (VA Form 22-1905), which must be presented to the Office of the University Registrar before registering for course work.

Veterans’ allowance checks are usually sent directly to veterans by the Department of Veterans Affairs. Veterans and eligible dependents should contact the Office of the University Registrar each term for which they desire Veterans Affairs certification of enrollment.

All veterans are expected to reach the objective (bachelor’s or master’s degree, doctorate, or certificate) authorized by Veterans Affairs with the minimum number of credits required. The Department of Veterans Affairs may not authorize allowance payments for credits that are in excess of scholastic requirements, that are taken for audit purposes only, or for which nonpunitive grades are received.

Applications and more information may be obtained from the student’s regional office of the Department of Veterans Affairs. Additional guidance may be obtained from the Office of the University Registrar.

Since interpretation of regulations governing veterans’ benefits is subject to change, veterans should keep in touch with the Department of Veterans Affairs or NYU’s Office of the University Registrar.

Yellow Ribbon GI Education Enhancement Program

NYU participates in the Yellow Ribbon GI Education Enhancement Program (Yellow Ribbon Program), a provision of the Post-9/11 Veterans Educational Assistance Act of 2008. The program is designed to help students finance, through scholarship assistance, up to 100 percent of their out-of-pocket tuition and fees associated with education programs that may exceed the Post-9/11 GI Bill tuition benefit, which will only pay up to the highest public in-state undergraduate tuition.
Beginning in the 2009-2010 academic year, NYU will provide funds toward the tuition of each qualifying veteran who has been admitted as a full-time undergraduate, with the VA matching NYU’s tuition contribution for each student.

To be eligible for the Yellow Ribbon benefits, an individual must be entitled to the maximum post-9/11 benefit. An individual may be eligible for the Yellow Ribbon Enhancement if:

- He/She served an aggregate period of active duty after September 10, 2001, of at least 36 months.
- He/She was honorably discharged from active duty for a service connected disability and had served 30 continuous days after September 10, 2001.
- He/She is a dependent eligible for Transfer of Entitlement under the Post-9/11 GI Bill based on a veteran’s service under the eligibility criteria, as described on the U.S. Department of Veterans Affairs Web site.

The Department of Veterans Affairs is currently accepting applications for the Post-9/11 GI Bill. To qualify for the Yellow Ribbon Enhancement, students must apply to the VA. The VA will then determine a student’s eligibility for the Post-9/11 GI Bill and issue the student a Certificate of Eligibility. Note: Students can apply using the VA Form 22-1990 (PDF), and the form includes the instructions needed to begin the process.

After a student is issued a Certificate of Eligibility from the Department of Veterans Affairs, indicating that the student qualifies for the Yellow Ribbon Program, please contact Clara Fonteboa, at clf1@nyu.edu or 212-998-4823.

The Office of the University Registrar must certify to the Department of Veterans Affairs that the eligible person is enrolled as a full-time undergraduate student in order for the funds to be paid under the Yellow Ribbon Program.

**CAMPUS SAFETY**

**Immunization Requirements**

New York State Public Health Law 2165 and 2167 and/or NYU require that all students (graduate, undergraduate, transfers and returning students who, to date, have not complied) taking six or more credits in an approved degree or registered certificate program in a degree-granting institution must provide proof of immunity to measles, mumps, and rubella and acknowledge receipt of information regarding the disease meningitis/or provide proof of meningitis vaccine.

If a student is not in full compliance, New York State requires that the University exclude him/her from attending classes 30 days after the first day of class for New York State residents and 45 days after the first day of class for out-of-state and international students. For more information, visit the Student Health Center Web site: www.nyu.edu/health.

**New York University Weapons Policy**

New York University strictly prohibits the possession of all weapons, as described in local, state, and federal statutes, that includes, but is not limited to, firearms, knives, explosives, etc., in and/or around any and all University facilities—academic, residential, or others. This prohibition extends to all buildings—whether owned, leased, or controlled by the University, regardless of whether the bearer or possessor is licensed to carry that weapon. The possession of any weapon has the potential of creating a dangerous situation for the bearer and others.

The only exceptions to this policy are duly authorized law enforcement personnel who are performing official federal, state, or local business and instances in which the bearer of the weapon is licensed by an appropriate licensing authority and has received written permission from the executive vice president of the University.

**New York University Simulated Firearm Policy**

New York University strictly prohibits simulated firearms in and/or around any and all University facilities—academic, residential, or other. This prohibition extends to all buildings—whether owned, leased, or controlled by the University. The possession of a simulated firearm has the potential of creating a dangerous situation for the bearer and others.

The only exceptions to this policy are instances in which (1) the bearer is in possession of written permission from a dean, associate dean, assistant dean, or department head and (2) such possession or use of simulated firearms is directly connected to a University- or school-related event (e.g., play, film production). Whenever an approved simulated firearm is transported from one location to another, it must be placed...
in a secure container in such a manner that it cannot be observed. Storage of approved simulated firearms shall be the responsibility of the Department of Public Safety in a location designated by the vice president for public safety. Under no circumstances, other than at a public safety storage area, may approved simulated firearms be stored in any University owned, leased, or controlled facilities.
Liberal Studies (LS) students have extraordinary opportunities to participate in student life at NYU. Students participate in a wide variety of University activities, including hundreds of student clubs, volunteer programs, and intercollegiate sports. LS also sponsors several student clubs, advised by faculty and led by student officers.

To learn more about student life activities and opportunities, contact the resources listed below or consult the comprehensive list of University Clubs at www.nyu.edu/clubs or email ls.studentaffairs@nyu.edu.

Emergencies and After-Hours Crisis Response
• For a life- or limb-threatening emergency, call 911.
• For a non-life-threatening emergency, call Urgent Care Services at the Student Health Center (SHC), 212-443-1111. When the SHC is closed, call the NYU Department of Public Safety, 212-998-2222.
• For mental health emergencies, call the Wellness Exchange hotline at 212-443-9999 or the NYU Department of Public Safety at 212-998-2222 to be connected to a crisis response coordinator.
Applicants are selected by the Admissions Committee each year. The Admissions Committee offers admission to only a select group of freshman applicants who then may begin their NYU studies at the campus in New York City. A smaller group of candidates may be awarded the opportunity to begin their studies at one of NYU’s global academic centers in Florence, London, or Paris. Transfer applicants are not eligible for admission to the Core Program; Global Liberal Studies does admit a select number of internal and external transfer students each year.

The Admissions Committee carefully considers each candidate’s application and gives weight to a number of factors: academic record, standardized test scores, recommendations from counselors and teachers, and essays. The committee also seeks a class that is diverse in all respects and carefully considers the applicant’s special talents, alumni affiliation, geographic location, and more. The committee is also interested in applicants who have an active and sustained level of involvement in school and/or community activities and who have taken on the responsibility of leadership. Admission is highly selective.

Applicants must file their application by the stated deadlines in order to be given full consideration.

ADMISSIONS PROCESS

Admission to Liberal Studies is based on the quality of the applicant’s secondary school record. Sound preparation, however, should include English, with heavy emphasis on writing; social studies; foreign language; mathematics; and laboratory sciences. The Admissions Committee pays particular attention to the number of honors, Advanced Placement (AP), and International Baccalaureate (IB) courses the applicant has completed in high school (if offered). The students most competitive for admission will exceed these minimums.

The minimum requirements for consideration are as follows:

- 4 years of English
- 3-4 years of mathematics
- 3-4 years of foreign language
- 3-4 years of laboratory sciences
- 3-4 years of history/social studies

Freshman candidates should submit official score reports for standardized tests:

- The SAT Reasoning Test; or
- The ACT with Writing Test; or
- Three SAT Subject Test scores; or
- Three AP exam scores; or
- The International Baccalaureate Diploma; or
- Results from a nationally accredited exam that is considered locally to signify the completion of secondary education, is administered independently of the student’s school, and has been approved by the NYU Office of Undergraduate Admissions

(approved options can be found on the Office of Undergraduate Admissions Web site: www.admissions.nyu.edu)

The NYU Code for the SAT, SAT Subject Test, AP, and TOEFL is 2562. The NYU Code for the ACT is 2838.

For students who have taken multiple examinations that meet NYU’s standardized testing requirements, the Admissions Committee recommends that in the spirit of marshaling the best case for admission, students choose which examination(s) they want the committee to review in the evaluation process. If a student feels one type of examination positions himself or herself more favorably, only that examination should be submitted – as long as the results submitted meet the Office of Undergraduate Admissions’ standardized testing requirements. Students do not have to submit multiple test types and should only do so if they want additional examination results to be reviewed. All examinations are considered equally and applicants will not be placed at a disadvantage for not sending SAT/ACT testing.

With regard to the SAT specifically, NYU participates in Score Choice, which enables students to elect which tests to send to NYU. If a student does take the SAT multiple times, the committee will only review the highest Critical Reading, the highest Math, and the highest Writing score submitted – regardless of test dates — creating the highest possible composite score for the evaluation process. For the ACT, NYU
will review the highest composite ACT score with Writing – regardless of test dates.

Students who submit SAT Subject Tests, AP, or IB scores (for students not submitting an IB Diploma) must submit: one literature or humanities score; one math or science score; and a score from one test of the student’s choice in any subject.

In addition to SAT, ACT, and IB results, the Office of Undergraduate Admissions considers a wide range of regional and national examinations to fulfill an applicant’s standardized testing requirement. Check www.admissions.nyu.edu for the most updated list. Applicants should not assume that any examinations will meet NYU’s testing requirements unless they are listed on the Office of Undergraduate Admissions’ Web site. Please email admissions.ops@nyu.edu with questions regarding examinations that are not included on the list online.

Test scores or examination results should be submitted directly from the testing organization by the appropriate application deadline. SAT, SAT Subject, ACT, and AP scores must be final at the time of application. For other examinations, if final results are unavailable at the time of application, predicted results may only be submitted by a school official via the Naviance/Common Application Web site, mailed on official school letterhead in a sealed/signed envelope, or emailed from a clearly identifiable school email address to admissions.ops@nyu.edu. NYU reserves the right to withdraw an offer of admission if final results are not within close range of the predicted results.

NYU also has English language testing requirements for non-native English speakers. Non-native English speaking applicants to the campus in New York are required to submit TOEFL (Test of English as a Foreign Language), IELTS (International English Language Testing System), or PTE Academic (Pearson Test of English Academic) results, which have been issued within the past two years.

Exemption from English language proficiency testing will be given:

- If the student’s native language is English; or
- If the student has been studying in a school or college/university where the sole language of instruction is English for at least three years at the time of application AND submit SAT, ACT, AP, or IB testing; or
- If the student’s education has been completed entirely in schools/colleges/universities where the language of instruction is English.

Even if students are exempt from taking the TOEFL, IELTS, or PTE exam, they may still submit their scores to demonstrate their English proficiency. Students should take one of these examinations regardless of any other test scores they submit to NYU if they do not quality for an exemption. The TOEFL/IELTS/PTE Academic score will be used in conjunction with, not in lieu of, other required standardized testing.

Students should be aware that while NYU does not have any minimum test score requirements, the most competitive applicants score about 100 on the TOEFL Internet-based Test (iBT) and 7.5 or above on the IELTS.

Information about the TOEFL may be secured on the TOEFL Web site (www.ets.org/toefl) and information on the IELTS is available on the IELTS Web site (www.ielts.org). Note: TOEFL is no longer accepted by the U.K. as evidence of English language proficiency for visa-granting purposes.

Early Decision

Students for whom NYU is their first-choice college are encouraged to apply under the Early Decision Plan. Early Decision candidates should submit the application and all supporting credentials by November 1 for Early Decision I or by January 1 for Early Decision II. NYU’s obligation under this arrangement is to provide applicants with an admission decision beginning in mid-December for Early Decision I or in mid-February for Early Decision II. The applicant’s obligation would be to enroll at NYU if admitted and offered a financial aid package that enabled him or her to attend.

Applicants Without U.S. Citizenship Or Permanent Residency

Financial documentation is not required when filing an application. If the student is accepted, instructions for completing the Application for Certificate of Eligibility (AFCOE) online will be included in the acceptance packet. Appropriate evidence of financial ability must be submitted with the AFCOE to the Office of Global Services in order for the appropriate visa document to be issued. If the applicant’s studies are being financed by means of his or her own savings, parental support, outside private or government scholarships, or any combination of these, he or she
must arrange to send official letters or similar certification as proof of such support. Additional information may be consulted at www.nyu.edu/global/international-immigration-services.html.

Campus Visits
All prospective students and their parents are invited to visit the New York University campus at Washington Square. Opportunities to tour the University, to meet students and faculty, and to attend classes are available to interested students.

Although interviews are not available, a visit to the campus is strongly recommended. Tours of the campus and admissions information sessions are conducted several times daily, Monday through Friday and on select Saturdays.

To make an appointment for a tour, an information session, or a class visitation, visit the Undergraduate Admissions Web Site at www.admissions.nyu.edu or call 212-998-4524. It is suggested that arrangements be made several weeks prior to visiting the campus.

Students admitted to the Liberal Studies sites in Florence, London, and Paris for the freshman year of study will be invited to visit these campuses in the spring, prior to the May 1 tuition deposit deadline.

NYU Guest Accommodations at Washington Square
NYU’s Office of Undergraduate Admissions has partnered with local hotels to offer guests special, discounted rates for their stay while visiting the NYU campus. Reservations should be completed through the reservation forms found on the Office of Undergraduate Admissions Web site (www.nyu.edu/admissions/undergraduate-admissions/visit-us/hotels-and-travel-discounts.html) to ensure the NYU Admissions discounted rate is received.

Student Visas And Orientation
Matters pertaining to student visas, pre-departure preparation, and orientation programs at the Liberal Studies sites in New York City, Florence, London and Paris will be provided to admitted students upon receipt of the tuition deposit.

Readmission Of Former Students
Any former student who has been out of attendance for more than three consecutive terms and who wishes to return to Liberal Studies must apply for readmission. The NYU application for readmission is available at www.admissions.nyu.edu.

Students who have attended another college or university since their last attendance at New York University must complete the regular application for undergraduate admission, submit an official transcript, and pay the $70.00 application fee.

ADVANCED STANDING CREDITS
NYU participates in the Advanced Placement Program (AP) of the College Entrance Examination Board. In accordance with New York University policy, if test results are 5 or 4, depending on the subject examination, the student may receive college credit toward the degree. International Baccalaureate, French Baccalaureate, A-levels, and Abitur credits may also result in advanced standing credit. Credits earned at other colleges and universities before admission to NYU in which the grades earned were B or better may also result in advanced standing credit. Some courses taken at other colleges may not be honored by NYU.

In order to receive evaluation of advanced standing credits, students should request that official AP results, college transcripts, and other documentation be sent to the Office of Undergraduate Admissions, New York University, 665 Broadway, 11th Floor, New York, NY 10012-2339.

The Core Program accepts a maximum of 32 credits of advanced standing. GLS accepts a maximum of 32 credits; however, the structure of the program does not normally allow early graduation. Please refer to “Advanced Placement Credit and Global Liberal Studies Requirements,” in Academic Policies and Procedures, on page 42. Advanced standing credits are college-level credits earned before entering NYU. They are submitted to the NYU Office of Undergraduate Admissions and evaluated by the LS Advising Center.

While LS accepts advanced standing credits, the work reflected by these credits will not substitute for any of the LS core classes. The only LS requirements for which advanced standing credits may substitute are mathematics and science. Students should also note that several undergraduate schools and colleges of NYU have different policies on whether AP or other advanced standing credit will be accepted in fulfillment of major and other requirements. Students should consult with the LS Advising Center about advanced standing credits and how they will be counted toward the baccalaureate degree.
See also “Academic Policies and Procedures” on page 40.

For information regarding the possibility of advanced standing credit for other maturity certificates, please contact the Office of Undergraduate Admissions at www.admissions.nyu.edu or 212-998-4500.

ENROLLMENT PROCESS

To be enrolled, an admitted candidate must do the following:

• Accept the University’s offer of admission and pay the required nonrefundable tuition deposit.

• If he or she plans to live on-campus in New York, or at one of NYU’s global sites in London, Paris, or Florence, for freshman year, submit the required housing deposit. All students planning to begin in London, Paris, or Florence are required to live on campus (and thus pay the housing deposit).

• Have his or her high school and college (if applicable) forward a final transcript to the Office of Undergraduate Admissions.

• File a medical report.

• Pay balance of tuition and/or housing fees by the stipulated deadlines.

• LS students should await contact by their assigned academic advisor about the advising and registration process.

International applicants (non-U.S. citizens and non-U.S. permanent residents) admitted to LS (the Core Program or Global Liberal Studies) will follow the guidelines listed above and, upon payment of the tuition deposit, will be provided with all the pertinent information for securing a student visa to enroll at New York University. Please note that upon acceptance, non-U.S. citizens and non-U.S. permanent residents must submit appropriate evidence of financial ability. See “Applicants Without U.S. Citizenship or Permanent Residency,” above.

Students are advised that registration in other than state-registered or otherwise approved programs may jeopardize their eligibility for certain student aid. All Liberal Studies programs are registered by the New York State Education Department.

ADDITIONAL INFORMATION

Current data on full-time undergraduate retention and graduation rates is maintained by the NYU Office of Institutional Research: www.nyu.edu/ir.

For more information about admission, please contact the NYU Office of Undergraduate Admissions: www.nyu.edu/admissions/undergraduate-admissions.html or 212-998-4500
New York University awards financial aid in an effort to help students meet the difference between their own resources and the cost of education. All awards are subject to availability of funds and the student’s demonstrated need. Renewal of assistance depends on annual reevaluation of a student’s need, the availability of funds, the successful completion of the previous year, and satisfactory progress toward completion of degree requirements. In addition, students must meet the published filing deadlines.

Following is the schedule of fees established by the Board of Trustees of New York University for undergraduates in the Faculty of Arts and Sciences for the year 2014-2015. The Board of Trustees reserves the right to alter this schedule without notice. Tuition, fees, and expenses may be expected to increase in subsequent years. Students should consult www.nyu.edu/bursar for updated information.

**Tuition: Full-Time Students**
Tuition, 12 to 18 credits flat rate, per term: $21,873
Nonreturnable registration and services fee for flat rate, per term: $1,212
Additional tuition, 19 or more units per term, per unit (includes a nonreturnable registration and services fee of $65): $1,354

**Tuition: Other Students**
Tuition, per unit, academic year 2014–2015: $1,289

**Fall 2014 term:**
Nonreturnable registration and services fee, first unit: $461
Nonreturnable registration and services fee, per unit, for registration after first unit: $65

**Spring 2014 term:**
Nonreturnable registration and services fee, first credit: $461
Nonreturnable registration and services fee, per unit, for registration after first unit: $65

**Books And Supplies**
Academic year: $1070

**Room And Board**
Academic year: $16,782*
*Actual room and board varies depending upon several factors.

**Personal Expenses**
Academic year: $2000

**Academic Support Fee**
All students must pay an academic support fee. For those taking 12 credits or more, it is $55 per term. For those taking fewer than 5 credits, it is $14 per credit, up to a maximum of $25 per term.

**Maintenance Of Matriculation**
Per term varies, plus nonreturnable registration and services fee:
Per term: $461

**Health Insurance**
NYU requires that all students registered in degree-granting programs maintain health insurance. Most students are automatically enrolled in either the Basic Plan or the Comprehensive Plan as part of the course registration process. Students automatically enrolled in the basic plan or the comprehensive plan wishing to change to a different plan may do so by completing the online enrollment process before the appropriate deadline; for details, please see www.nyu.edu/health/insurance.

**Basic Health Insurance Benefit Plan: 2014–2015**
For additional and updated information beyond 2014–2015, please see www.nyu.edu/health/insurance.
Annual: $2,094
Fall term: $810
Spring term: $1,284 (coverage for the spring and summer terms)
Summer term: $568 (only for students who did not register in the preceding term)

**Comprehensive Health Insurance Benefit Plan: 2014–2015**
For additional and updated information beyond 2014–2015, please see www.nyu.edu/health/insurance.
Annual: $3,236
Fall term: $1,249
Spring term: $1,987 (coverage for the spring and summer terms)
Summer term: $877 (only for students who did not register in the preceding term)

**Stu-Dent Plan: 2014–2015**
For additional and updated information beyond 2014–2015, please see www.nyu.edu/health/rates.

Dental service through NYU’s College of Dentistry:
Primary member: $240
Partner: $240
Dependent (under age 16): $83
Renewal membership: $193

**Special Fees For All Students: 2014–2015**
For additional and updated information beyond 2014–2015, students may consult the Web sites of or contact the Offices of the Registrar, Bursar, Residence Life, and Admissions.
Late payment of tuition fee: $25
Late registration fee commencing with the second week of classes: $50
Late registration fee commencing with the fifth week of classes: $100
Deposit upon acceptance (non-refundable): $500
Housing deposit (if applicable) upon acceptance (non-refundable): $1,000

**SPECIAL PROGRAMS**
For expenses for study in NYU study away and in NYU international exchange programs, contact the NYU Office of Global Programs, 110 East 14th Street, Lower Level, New York, NY 10003-4170; 212-998-4433. Also see www.nyu.edu/global.html.

**FINANCIAL AID**
Financial aid comes in three forms: scholarships and grants (funds that do not have to be paid back), loans (funds that do have to be paid back with interest), and work-study grants (funds that allow students to work for NYU in exchange for pay).

There are no separate applications for merit scholarships at NYU. The admission application is used to determine if students qualify for any scholarship where merit is considered.

The following are the only forms students need to complete online for whatever possible financial aid is awarded at NYU, including all need-based and merit-based scholarships:

1. **The College Scholarship Service/Financial Aid Profile (CSS Profile)**
   - The CSS PROFILE is required of all applicants, regardless of citizenship, who would like to be considered for any NYU financial aid, including any and all NYU scholarships and grants.
   - Scholarships/grants for international students applying to the New York campus will be limited.
   - The CSS profile should only be filed by freshman applicants to NYU. Transfer applicants are not eligible to submit the CSS Profile.

   - Students with divorced, separated, or unmarried parents will need to submit the CSS Non-Custodial Parent Profile (or the CSS Non-Custodial Parent PROFILE waiver request) by the deadlines below to qualify for scholarships/grants.

   - NYU’s CSS/PROFILE deadlines are: November 1st (Early Decision I applicants), January 15th (Early Decision II applicants), and February 15th (Regular Decision applicants).

2. **The Free Application for Federal Student Aid (FAFSA)**
   - The FAFSA is also required of all financial aid applicants who are U.S. Citizens and/or Permanent Residents.
   - Do not complete the FAFSA until January 1st if applying for Fall admission.

   - NYU’s FAFSA deadlines are: February 15th (all freshman applicants) and April 1st (GLS external transfer applicants, fall only).

**Eligibility for Financial Aid**
To be considered for financial aid, students must be officially admitted to NYU or matriculated in a degree program and making satisfactory academic progress toward degree requirements. Financial aid awards are not automatically renewed each year. Continuing students must apply for financial aid each year, continue to demonstrate financial need, make satisfactory progress toward degree requirements, and be in good academic standing.

SCHOLARSHIPS AND GRANTS
Eligibility for merit-based and/or need-based scholarships at NYU is determined upon entrance to the University based on prior academic strengths and, if applying for financial aid, a student’s demonstrated financial need.

University-Sponsored and University-Administered Programs
Through the generosity of its alumni and other concerned citizens, as well as from funds supplied by the federal government, the University is able to provide an extensive financial aid program for its students. Awards are competitive and are based on a combination of academic achievement, applicable test scores, and, in most cases, financial need. No separate application is necessary. Details can be obtained at www.nyu.edu/admissions/undergraduate-admissions/financial-aid/scholarships.html.

Federal Scholarships and Grants
Eligibility is based on submission of the FAFSA, and no separate application is necessary.

State Grants
New York State offers a wide variety of grants and scholarships to residents, subject to the annual availability of funds. Application is made directly to the state, and grants are awarded by the state. New York State programs are listed at www.hesc.com.

Some students from outside New York State may qualify for funds from their own state scholarship programs that can be used at New York University. Contact the state financial aid agency (call 800-433-3243 to obtain contact information) to ask about program requirements and application procedures. Upon receiving an eligibility notice from your state program, students should submit it immediately to the NYU Office of Financial Aid.

Scholarships and Grants from Other Organizations
Students may be eligible for a private scholarship or grant from an outside agency. Some sources to explore are employers, unions, professional organizations, and community and special interest groups. A number of extensive scholarship search resources are available free online, and several are featured at www.nyu.edu/financial-aid/scholarships.html. Students must notify the Office of Financial Aid if they receive funds from any of these sources.

OTHER SOURCES OF AID
Federal and Private Loans

Student Employment
Most financial aid award packages include work study. This means that students are eligible to participate in the federal work study program and may earn up to the amount recommended in their award package. Work study wages are paid directly to the student on a biweekly basis and are normally used for books, transportation, and personal expenses.

Resident Assistantships
Resident assistants reside in the residence halls and are responsible for organizing, implementing, and evaluating social and educational activities. Compensation is room and/or board, and/or a stipend. Applications and further information may be obtained from www.nyu.edu/life/living-at-nyu.html.

Tuition Remission
Members of the NYU staff, teaching staff, and officers or administrators and their dependents who are eligible for NYU tuition remission are not eligible for other forms of financial aid administered by the University (including merit awards). Eligibility can be reviewed for other types of aid including: Federal Stafford Loans, Federal Unsubsidized Stafford Loans, Federal Parent Loans for Undergraduate Students (PLUS), TAP Grants, Federal Pell Grants, and some private (non-federal) alternative loan programs if the Free Application for Federal Student Aid is completed. Details about tuition remission eligibility information can be obtained at www.nyu.edu/employees/benefit.html.

STUDENT FINANCIAL AID RESPONSIBILITIES
• Students must apply for financial aid each year to receive any and all types of financial aid awarded at NYU, including all need-based and merit-based scholarships.
• Consult www.nyu.edu/financial.aid for all financial aid application deadlines. Failure to meet the NYU deadline may result in a reduction of a student’s aid eligibility.

• Use NYU Albert to accept financial aid awards.

• If submitting documents to the Office of Financial Aid, put the University I.D. number on each page and keep a copy for yourself. Do not submit originals.

• Be certain to understand the conditions of the awards accepted. Contact the Office of Financial Aid with any questions.

• Adhere to satisfactory academic progress standards to remain eligible for financial aid. The Office of Financial Aid will send reminders, but it is the student’s responsibility to know and heed the requirements.

• Notify the Office of Financial Aid immediately if an award or financial aid is received from any additional source. A change in resources may affect eligibility for student aid.

• Respond immediately to all requests from the Office of Financial Aid. Failure to comply may result in the cancellation of aid.

• Consult with the Office of Financial Aid if there is a change in housing status. A change in enrollment or housing status may affect the financial aid received.

• Notify the Office of the University Registrar of change of address by updating contact information via NYU Albert. NYU uses the records of the Office of the University Registrar to administer financial aid.

For more information about scholarships and financial aid, please contact NYU’s Office of Financial Aid: www.nyu.edu/admissions/undergraduate-admissions/financial-aid.html or 212-998-4444.
Global Academic Centers

NYU offers study away outside New York for a semester or a year at its global academic centers:

- Abu Dhabi, United Arab Emirates
- Accra, Ghana
- Berlin, Germany
- Buenos Aires, Argentina
- Florence, Italy
- London, United Kingdom
- Madrid, Spain
- Paris, France
- Prague, the Czech Republic
- Shanghai, China
- Sydney, Australia
- Tel Aviv, Israel
- Washington, D.C., USA

NYU Abu Dhabi

NYU Abu Dhabi, the University’s first degree-granting campus outside the U.S., is a study away option for students earning their degree in New York. Located in the global crossroads of the Persian Gulf, NYU Abu Dhabi offers study away students the opportunity to continue their education at a comprehensive research university among students who come from all over the world. Small class sizes allow students to develop close relationships with professors. Students can choose from a wide array of courses in liberal arts and sciences, many of which respond to the location of Abu Dhabi and promote an understanding of Middle Eastern history and culture. Language courses in Arabic and Chinese are offered.

The NYU Abu Dhabi campus is located on Saadiyat Island. Five hundred meters off the mainland, the island is being planned for a population of 150,000, with a cultural district featuring several museums, including the Guggenheim Abu Dhabi and the Louvre Abu Dhabi. The NYU campus has facilities dedicated to academics and research, residential life, library, dining, performance and the arts, and athletics. In addition to the main campus, the NYUAD Center for Science and Engineering (CSE) provides extensive teaching and research space.

NYU Accra

NYU’s global academic center in Accra, the capital of Ghana, offers courses in the arts, literature, communication, journalism, media, anthropology, history, politics, global public health, and sociology taught by local professors and visiting faculty from New York. Students at NYU Accra have the unique opportunity to enhance coursework relevant to their majors with enrollment at the University of Ghana-Legon, where they may take up to two courses while studying alongside West Africa’s top students.

Many NYU Accra students intern and take part in community service with NGOs, local businesses, and philanthropic groups, helping them to understand social entrepreneurship in a fast-developing city. Numerous cocurricular travel opportunities introduce students to the diversity and complexity of West African culture. Whether learning Twi, the city’s local dialect, or embracing local West African culture, students at NYU Accra are rewarded with an unparalleled intellectual and cultural experience.

All students are required to reside in NYU-arranged housing facilities as a condition of enrollment at NYU Accra. The housing facilities are located in residential neighborhoods within walking distance of the NYU academic center and provide shared bedrooms, kitchens, and common space.

NYU Berlin

At NYU Berlin, located in the trendy Prenzlauer Berg neighborhood in central Berlin, students experience a cosmopolitan city that holds a complex and crucial place in modern European history. Youthful, artistic, and hip, Berlin has traveled a path that led from the defining cultural avant-garde of the Weimar Republic to the devastation of World War II, from a divided city symbolizing the Cold War to today’s reunified and renewed capital.

The program at NYU Berlin is designed for students in the social sciences and humanities who want to earn credit in their majors—including sociology, history, politics, studio art, environmental studies and European studies—while having a transformative experience abroad. Courses are taught in
English, and German language courses are offered at all levels. Day trips and guided excursions in and around Berlin are included in the program.

All NYU Berlin students live in the lively district of Kreuzberg in an NYU-managed residence hall. Students share double rooms and enjoy spacious common areas and a film screening studio. Outdoors, there is a well-manicured green space, which invites students to study and relax. Student housing is located just a short walk from two major subway lines, making the commute to classes at the global academic center about 35–40 minutes by public transport.

NYU BUENOS AIRES

NYU Buenos Aires offers students the exceptional opportunity to learn about the people, history, culture, politics, and economy of Argentina and the region while living in one of South America’s most vibrant cities. Courses are taught in Spanish and English by some of Argentina’s most talented scholars, journalists, and public health professionals, as well as renowned writers and musicians. The curriculum provides a cultural framework for coursework in subjects ranging from art history, cinema studies, and creative writing to politics, sociology, and economics. All students at NYU Buenos Aires take a Spanish language course at their appropriate level upon arrival or, if they possess advanced skills, an elective in the language.

A place of renewed growth and prosperity, Buenos Aires is one of the most important financial and cultural centers in Latin America. The NYU global academic center is located in the handsome Recoleta district, near vibrant Avenida Santa Fe. Staff members organize and offer a myriad of activities for students to take part in, ranging from regional travel to destinations such as Iguazu Falls, Rosario, and Tígrer to taking tango lessons throughout the semester. Volunteer opportunities at local NGOs and media offices open doors for students to engage in the community and practice Spanish. Museums, class field trips, and concerts offer opportunities to go beyond day-to-day cultural experiences and better understand the dynamic past and present of the Argentine capital. Students live in homestays which brings the everyday Argentine way of living to life as students share meals, ideas and activities with their host parents.

NYU FLORENCE

NYU Florence offers a strong and coherent humanities curriculum of art history, history, cinema, and literature, alongside a focused concentration in social research, public policy, and law. Each of these two separate but not unrelated parts takes advantage not only of the extraordinary cultural resources provided by the city of Florence and Italy in general, but also of a unique array of cocurricular lectures and activities through the La Pietra Dialogues series that make the Florence campus a dynamic center for scholarly activity and global policy discussions. Cultural activities and field trips in and around Florence and Tuscany are an integral part of the cocurricular program.

Courses are taught in English. Italian language courses are available at all levels, and an intensive Italian Language Program is available for beginning students who want to accelerate their language acquisition and engage with Florentine culture at the same time. Students with advanced proficiency in Italian may take courses taught in Italian at the NYU global academic center or may directly enroll in courses at the University of Florence for up to half of their coursework.

The academic center is located just north of the city center on a magnificent 57-acre estate bequeathed to the University by Sir Harold Acton, a distinguished patron of the arts. The estate is comprised of five villas, most notably La Pietra, which houses an early Renaissance art and furniture collection, and its grounds feature one of the most authentically restored Renaissance gardens in all of Tuscany.

Some students reside on the estate in one of two villas that have been dedicated to student housing; other students live in downtown Florence in shared residences or in a homestay in an Italian household.

NYU LONDON

Centrally located in Bloomsbury, the heart of London’s university district, students at NYU London take advantage of a wide range of academic programs complemented by the rich cultural experience of living in one of Europe’s most storied cities. Specialized programs are available in Africana studies, art and architecture, business, mathematics, British literature and writing, prehealth, and psychology. Additionally, NYU is one of the only institutions in London to offer science courses approved by the American Medical College Application Service (AMCAS) for medical school admittance. Fieldwork and site visits are a regular part of many classes and students may enroll in for-credit
internships with key institutions in fields including marketing, finance, media, law, politics, health, and theatre.

The global academic center, a converted 18th-century town house, is located on historic Bedford Square near many museums and public parks and gardens. The center offers classrooms, a computer lab, and a student resource room. Students live nearby in NYU-arranged residences close to public transportation, the shops of the Brunswick Center, and the West End (London's theatre district).

Students can take advantage of guided tours to places such as the British Museum, Shakespeare's Globe, the Tate Gallery, Westminster Abbey, and the Tower of London. There are also several walking tours focusing on the architecture of districts such as Soho, Bloomsbury, and Westminster, as well as excursions to sites outside of London.

NYU MADRID

At NYU Madrid students advance their command of Spanish while engaging with European traditions and culture in their coursework. Established in 1958 as NYU's first global academic center, NYU Madrid offers Spanish language instruction at all levels, as well as courses in economics, politics, Spanish culture, Spanish American literature, history, civilization, anthropology, the social and political sciences, fine arts, and cinema.

For students with no previous knowledge of Spanish, elementary language courses are offered along with a curriculum taught in English. Beginning students may choose to enroll in the Fast Track Spanish for Beginners Program to raise their proficiency levels rapidly in just one semester. Students at the intermediate level can take courses conducted in Spanish designed especially for their skill level. During the spring semester qualified students who are fluent in Spanish may take up to two courses at NYU's affiliated university, Universidad Autónoma de Madrid (UAM).

Madrid is the political and cultural center of Spain and one of the liveliest and friendliest capital cities in Europe, replete with magnificent architecture, world-class museums, and delicious cuisine. Students at NYU Madrid enjoy a semester of rich cultural experiences that complement their studies, whether they're on a class trip to the Museo del Prado to learn firsthand about Goya's masterpieces or at an out-of-the way tapas bar on Cava Baja.

Many students live in homestays with Spanish host families, which encourages them to build a deeper connection with Spanish culture and provides an opportunity to practice speaking in a more casual environment. Other students live in privately-owned apartments. An Intercambio Program brings NYU Madrid students together with local students to practice their Spanish and make friends.

NYU PARIS

The curriculum at NYU Paris focuses on the language, arts, history, literature, and politics of France and its relationships with the wider world. A world-class faculty provides context and support for students’ academic work. Students with a limited background in French enroll in Program I, where all courses except for language courses are taught in English. Students proficient in French participate in Program II, which features a variety of courses taught in French. All students take a French language course appropriate to their level. Coursework is enhanced by faculty-led trips in and around Paris, to world-renowned museums such as the Louvre and the Musée Picasso or to smaller galleries and exhibits, as well as to the opera, ballet, and theatre. Students also have the opportunity to take a course or two through an arrangement at one of the local French universities.

The NYU Paris global academic center is located in the Latin Quarter, the thriving historic and intellectual heart of Paris. Students have the opportunity to benefit from the numerous cultural, artistic, and academic institutions of this wonderful neighborhood. The cocurricular program offers day trips to places outside of the city such as Chantilly, Giverny, and Versailles, and weekend excursions and study-trips to locations such as Avignon, the Loire Valley, and La Rochelle, that allow students to further embrace the richness, depth, and diversity of French history and civilization.

Student housing is arranged in homestays, apartments, and residences around the city—all commutable to the academic center via public transportation.

NYU PRAGUE

NYU Prague, located in two 15th century buildings only steps away from the Old Town Square and the historic clock tower, offers students a broad curriculum in art, architecture, film, media, music, photography, politics, business, the humanities, and social science. Courses are taught by a diverse faculty, including noted writers, foreign ambassadors, and leading dissidents of the Velvet Revolution, the nonviolent
political movement that ended the Communist regime in Prague in 1989. A specialized program in music and the performing arts pairs students in private lessons with the most talented musicians in the nation, while music and photography students have access to on-site practice space and darkrooms. All courses are taught in English except for language courses in Czech, German, Polish, and Russian.

Prague has emerged as a crown jewel of central Europe—a vibrant center of culture and thought that attracts students from around the world. NYU Prague students engage in this environment via cocurricular programming that includes attendance at global conferences in the city and a dynamic lecture series hosted at the NYU Prague Institute for Democracy, Economy, and Culture. Internships are widely available, and in past semesters students have written for Czech magazines and worked with the public relations and fundraising arms of the Archa and Ponec theatres and the Prague Philharmonic Orchestra.

NYU-arranged housing is provided in residential buildings a short commute from the global academic center on public transit. NYU Prague staff plan a series of activities to introduce students to the exciting cultural history and characteristics that make Prague unique.

NYU SHANGHAI

NYU Shanghai, the University’s second degree granting campus outside the U.S., offers a study away option for students interested in a semester or year studying in this exciting business and cultural center. Located in the Pudong district in the heart of China’s most dynamic city, with a population estimated to be between 16 and 24 million, the NYU Shanghai campus has facilities for academics and research, library, computer labs, and student activities. Students are guaranteed housing in NYU-arranged residences a short transit ride from campus.

A metropolis with strikingly modern architecture, Shanghai is the perfect locale from which to observe the interplay of various forces that have turned China’s economy into one of the world’s largest in a very short time. At NYU Shanghai students will find courses taught in English by prestigious faculty in a variety of disciplines in liberal arts, science, and engineering. Students are drawn to NYU Shanghai from China, the United States, and from around the world, all seeking an academic environment that encourages cross-cultural learning, exploration, and development. NYU Shanghai provides students with access to on-site academic administrators who will advise them during their stay, as well as to a full-time student affairs staff. Studying at NYU Shanghai affords students the exceptional opportunity to learn about the history and culture of this ever-developing country while participating in the vibrant activities of day-to-day life in Shanghai.

NYU SYDNEY

Located in Australia’s largest and most cosmopolitan city, NYU Sydney provides students with the unparalleled opportunity to live and study in a hub of commerce, culture, and communication in the Asia-Pacific region. NYU Sydney students will be able to explore Aboriginal art and culture, products of the longest continuous civilization on the planet. Courses will introduce Australia’s rich history of immigrant communities that formed this continent-sized nation with unique and compelling characteristics. The curriculum offers classes in anthropology, business, English, environmental studies, journalism, prehealth, psychology, and communications.

The NYU Sydney global academic center is located in a recently renovated historic building in the Rocks area of central Sydney near the renowned harbor. The facility houses the administrative offices, classrooms, computer lab, and reading room. A common area doubles as a study lounge and space for social gatherings. Students are assigned housing in an NYU-arranged residence a short commute on public transit from the academic center.

Leading professors drawn from Sydney and the local region along with NYU staff support students as they engage with the city and local culture. NYU-organized study trips taking students beyond the areas visited by casual tourists are an essential part of the cocurricular program.

NYU TEL AVIV

Tel Aviv, a vibrant Mediterranean metropolis, is the financial and technological center of Israel. Here, students have the opportunity to acquire a sophisticated understanding of Israel and the Middle East, and of the interrelationships between cultures, political movements, and religious traditions.

The curriculum at NYU Tel Aviv is particularly well suited for students studying history, politics, biology, and the social sciences. While students study with great teachers in a variety of fields,
they also develop competency in Hebrew or Arabic and, through a credit-bearing internship course, may engage with local cultural and community organizations, businesses, and nongovernmental organizations (NGOs). NYU Tel Aviv has a dedicated faculty that includes established scholars, artists, journalists, and public intellectuals whose internationally valued work transcends traditional disciplinary boundaries.

All students live in NYU-arranged housing located in a residential neighborhood near Yarkon Park, often compared to New York’s Central Park for its sports facilities, botanical gardens, aviary, water park, concert venues, and lakes. Outside class, students can enjoy Tel Aviv’s Bauhaus-inspired modern architecture, world-class museums, modern art galleries, dance and theatre performances, opera, jazz, classical music, and an emerging alternative music scene.

NYU WASHINGTON, D.C.

No global network would be complete without a location in the U.S. capital, the seat of the federal government, home to 174 embassies, headquarters of numerous international policy-making bodies and think tanks, and the site of many museums, monuments, and cultural institutions. At NYU Washington, D.C. students will find study and research opportunities in an array of subjects, including American studies, art history, business, environmental studies, history, journalism, metropolitan studies, politics, prelaw, and public policy, all enhanced by access to Washington’s distinctive intellectual, political, and cultural life. Students learn under the guidance of a world-class faculty, and engage in carefully selected and academically supervised internships with elected officials, government agencies, international organizations, NGOs, museums, media, and other institutions.

Students live and attend class just blocks from the White House, the World Bank, and the Smithsonian museums at NYU’s Constance Milstein and Family Global Academic Center, which features seminar rooms, an auditorium, computer lab, reading room, and student lounges on each floor. The center also serves as a venue for dynamic public programming featuring leaders in government, business, and culture as well as notable public figures as part of the Weissberg Forum for Discourse in the Public Square. These events encourage students to discuss topical issues with distinguished speakers and contribute to an academic environment that deepens their understanding of public policy, civic activism, cultural studies, international concerns, green initiatives, media matters, political debates, legal issues, and business affairs.

In addition to the connections students make at their internship placements, students also have opportunities to become involved with the local community through programming and activities that include visits to places of historic significance, tours of museums, galleries and monuments, and volunteer opportunities in the community. A large NYU alumni network provides additional opportunities for students, including support for our mentoring program.
