*CF III and SF III are taken in attending semester during sophomore year

You are encouraged to complete a Physical or Life Science in the first semester (barring any AP Science credits) if you are undecided about your major or program of study. For further guidance, contact your Academic Advisor who will assist you in class selection.*

***Physical and Life Science class options in Liberal Studies:**

History of the Universe, Science of Technology, or other Natural Science I equivalent (4 credits) *
Life Science, Environmental Studies, or other Natural Science II equivalent (4 credits) *

***One science or math class is required before transition out of The Core Program. However, requirements of the various NYU schools and programs vary, so it is suggested that you consult with your academic advisor. If you scored a 4 or 5 on an AP Science exam, refer to the [AP Program](#) or contact your academic advisor to discuss substitution for Natural Science I or Natural Science II.**
