GO LOCAL option - complete interest form ASAP!
The email message that you received last week from NYU Provost Katherine Fleming regarding opportunities and approaches for the upcoming 2020-2021 academic year include the Go Local option for students who live close to an operating campus or academic site in NYU's Global Network. If that pertains to you, and you would like to consider that option, please make sure to complete the interest form as soon as possible. This opportunity may especially be of interest to students living abroad who might experience travel restrictions or visa delays. If approved, students will register in at least one or two course in-person courses at their local NYU site, but also take advantage of the wider NYU curriculum through remote courses. In addition to international sites like NYU Shanghai, there are also domestic options like NYU Washington DC. The approved sites will offer courses for first-year students in Liberal Studies. Please contact your academic advisor ASAP, as your advising and registration process will differ from what is outlined in this Registration Guide.

Welcome

Congratulations on your acceptance to the NYU Class of 2024! This handbook will serve as your guide for Fall 2020 registration, and a useful reference for the future. It includes important registration information, curriculum guidelines, advisor contacts and other details about the first-year experience in Liberal Studies. Please be sure to thoroughly review this guide prior to registration on Monday, July 20th. You will also find more information and updates on the Liberal Studies Advising Website. We are excited to welcome you into the Liberal Studies community!
Who is My Advisor?

All Liberal Studies Core students are assigned an academic advisor and a faculty mentor. Academic advisors are professional staff members at NYU who are available to address the full range of your advising-related questions and needs. They have a comprehensive understanding of the university resources available to you, and help inform your academic decisions. Your academic advisor is accessible by email or telephone throughout the summer to assist with any advising or registration issues. Please refer to the chart below in order to find your assigned advisor.

*Note that a few special populations are identified (HEOP, film & TV, prehealth students, and student-athletes), so assignments are not exclusively alphabetical.*

You remain with your academic advisor for the duration of your time in the LS Core. The Liberal Studies Advising Center is located at 726 Broadway, 6th Floor. Advisors are available either by scheduled appointment (9am - 5pm) or during designated drop-in hours. You will also be assigned a faculty mentor who will contact you in September. You are expected to meet with your faculty mentor during the first month of the fall semester. We encourage you to establish relationships with both your academic advisor and your faculty mentor by asking them questions that explore your academic interests and objectives.

Advising Groups

Liberal Studies Advising Groups offer first-year students the opportunity to establish a small community during orientation and throughout the first semester. The advising groups provide a welcoming and supportive environment through which to build relationships with your peers, your academic advisor, and your Student Leaders, in addition to learning important information about advisement and registration. In particular, advising groups will help connect students in the following ways:

Summer Outreach - Introduction Message May 29th, Registration Opens July 20th
First-year students in Liberal Studies will be introduced to their Advising Groups by their assigned Academic Advisor through email correspondence on May 29th, 2020. Registration for the Fall 2020 semester then opens for new students on Monday, July 20th.

Liberal Studies Orientation - August 30 to September 1
Orientation for Liberal Studies is scheduled from August 30 to September 1, 2020. Throughout orientation, there will be a variety of events and activities, academic sessions and workshops, and services designed to help students acclimate to Liberal Studies and New York City! For general information about orientation, as well as other important dates and checklists this summer, visit Next Stop NYU.

Student Leaders
The Liberal Studies Student Leader program is designed to assist new students with their academic, social, and personal transition by designating a team of dedicated upper-level peer mentors to each Advising Group.

Summer Reading
All first-year students across NYU are assigned a special reading for the summer which will be discussed at a group session during orientation week. More detailed information will be provided in an email message sent mid-summer, and shared on the NYU Reads website when the selection goes live! (www.nyu.edu/nyureads).
Choosing My Classes: The Big Picture

For most new students, an important question is often, “how should I choose my classes?” To guide you in selecting classes, we have created some useful guidelines to help keep the overall structure of your academic career in mind.

First, think of all the courses you will complete over the upcoming four years (usually 32 total classes, 128 total credits). You can group those classes into three main categories, plus electives. The three groups, in addition to any electives, should add up to at least 128 credits by the time you graduate. Please note some classes might also count toward more than one group:

1. **Liberal Studies Core Requirements**: This includes the set of courses that all Liberal Studies students are required to complete before transitioning into their degree program (a total of 8 classes, plus at least one natural science or math)
   a. Arts and Cultures Sequence (3 classes)
   b. Global Works and Society Sequence (3 classes)
   c. Writing Sequence (2 classes)
   d. One Physical or Life Science, or Quantitative Reasoning (Math) course

2. **College Core Curriculum (CCC) Requirements**: These courses are designed to provide students with the skills and breadth of intellectual perspective critical to any liberal arts education. Each school or program participating in direct transition with Liberal Studies has its own specific version of the College Core Curriculum requirements, so the precise requirements may differ depending on your intended school/major for transition. For Liberal Studies students, these requirements consist of three categories.
   - Physical Science & Life Science (usually 1 or 2 classes)
   - Quantitative Reasoning/Math (usually 1 class)**
   - Foreign Language (0-4 classes, depending on placement & proficiency)

3. **Major/Minor Requirements**: This group includes the specific department or program courses you must complete in order to earn a major (or minor) in that subject. Most departments in the College of Arts and Science require between 9-13 classes for a major (and 4-6 for a minor), for example, though majors in other schools and programs may vary. LS students declare their major at the end of sophomore year, but please note minors are declared in junior year AFTER transition.

4. **Electives**: This group includes the remaining credits you complete to achieve the minimum 128 credits for graduation, classified as electives. These may be used to explore subjects of interest, including courses for academic or personal enrichment, but not intended for a major or minor.

* For AP/IB/A-Level equivalencies, consult this site
** Some major courses also fulfill QR requirements; consult with your advisor
What Should I Do Now?

Registration Checklist

Registration for first-year students in the LS Core opens on **MONDAY, JULY 20TH**. Normally, each student is assigned a specific registration appointment time in the Albert Student Center, but for this registration all students will be activated at 11am ET. **Please note your ADVISING HOLD will be automatically released the morning of July 20th for all first-year students, so you do not need to request advisor clearance.**

Please complete the following checklist well before July 20th so that you are prepared for registration:

**Step 1: Activate your Net ID by June 12th**
- Activate your NYU Net ID online at [http://start.nyu.edu](http://start.nyu.edu) (a combination of your initials and numbers)
- Enroll in **Multi-Factor Authentication**, the security feature for NYU student information systems that helps protect access to your records. All students are required to register at least one (mobile) device in order to authenticate the user when signing into NYU systems.
- If you encounter problems, please contact IT Client Services at (212) 998-3333 or by email at AskIT@nyu.edu.

**Step 2: Review the Albert Registration Guide before July 20th**
- Albert is the student information system at NYU, accessed through your NYUHome portal. To learn more about registration procedures through Albert, review the specific links for information on how to Search, Validate, and Enroll in classes. Note that Advisor Holds will be automatically released the day of registration.

**Step 3: Mark your calendar for the Liberal Studies Webinars**

**Liberal Studies Deans’ Webinar**
Have a question for the dean? Join Dean Julie Mostov and Associate Dean of Students Jon White to discuss your questions about the upcoming academic year, different platforms for the classroom experience, “Go Local” options, and more! Note this webinar is distinct from the advising webinar that follows on June 9th, which will focus more on registration & course selection.

**Wednesday, June 3rd, from 10:30-11:30am EDT**  
**Register for Webinar**

**Registration & Advising Webinars**
Learn more about course selection and registration, academic advising resources, and the first-year experience in Liberal Studies!

- **Thursday June 4th from 6:00-7:00pm EDT**  
  **Register for Webinar**
- **Monday, June 8th from 9:00-10:00am EDT**  
  **Register for Webinar**

**Prehealth Supplementary Webinar**
For students planning to pursue prehealth at NYU, learn more about the curriculum with our prehealth advisor in Liberal Studies. This session is supplemental though, so students are still encouraged to attend a Registration & Advising Webinar.

- **Tuesday, June 9th from 7:00-8:00pm EDT**  
  **Register for Webinar**

*If needed, students should download ZOOM before the webinar at [https://nyu.zoom.us/](https://nyu.zoom.us/)

**Step 4: Before July 20th, using Albert Course Search**, draft a schedule of the four classes you plan to take in the fall semester.

The NYU Albert Course Search provides the most comprehensive scheduling information for classes, including the specific class # needed in order to register online for a particular section of a course. For further descriptions, refer to the Course Descriptions list on the Liberal Studies Advising website. As a reminder, most students register in 4 total courses (including 3 requirements from Liberal Studies). The fourth course should fulfill a general education requirement (such as science, math or language); or an introductory course toward a prospective major or minor; or a general elective. As you search, note the 3 LS Core requirements mentioned below will be listed under Liberal Studies.
___ Writing as Exploration, WREX-UF 101 (Required)
___ Arts and Cultures across Antiquity, ACA-UF 101 (Required)
___ Global Works and Society: Antiquity, GWA-UF 101 (Required)
___ AND a fourth class identified by reviewing the Fourth Class Selection section of this guide, keeping in mind The Big Picture information shared on page 3. For additional assistance, consult with your academic advisor.

Some Special Notes & Reminders

- We encourage you to balance your schedule by arranging two classes on Mondays & Wednesdays, and the other two classes on Tuesdays & Thursdays, if possible.
- First-year students are expected to register in four 4-credit classes in the fall semester. Note full-time status at NYU is defined as enrollment in 12-18 credits, and students on average take 16 credits.
- Some lectures in the College of Arts and Science may have a weekly recitation (RCT) associated with it. If so, you are required to register for both the lecture and a corresponding recitation, entering class numbers for both.
- Waitlists are not an option for courses offered through Liberal Studies

+ Remember to add your chosen sections to your shopping cart in Albert, to have these sections all queued up for the morning of registration so you can enroll in your classes quickly and efficiently!

Step 5: On July 20th, register in your four classes for Fall 2020 at your designated time or soon afterwards

- Registration is through NYUHome. Log into your account at http://home.nyu.edu/, and click on the Albert Student Center link under the Academics tab. Once connected to the Student Center, click on the “Enroll” link to register for your courses.
- Follow the instructions provided in the Search, Validate, and Enroll videos to search for class listings, and ultimately register for classes when activated on July 20th (or as soon as possible thereafter). Note that Advisor Holds will be automatically released the morning of July 20th.

Step 6: Confirm your selections by viewing your class schedule in Albert

- You should be able to view your enrolled courses for the fall semester on the main Student Center page in Albert. Your registered courses are listed in the “Enrolled Course” section for Fall 2020 tab.
- To view your weekly schedule of classes, click on the “Weekly Schedule” link below the list of your enrolled courses (on the Fall 2020 tab of the Student page in Albert).

Course Numbers & Subject Coding

At NYU, all course numbers include an abbreviated subject code, followed by a two-letter school designation to help identify which school offers the class. Some of the common codes for LS Core students are indicated below.

UA = College of Arts & Science
UE = Steinhardt School of Culture, Education & Human Development
UN = Meyers College of Nursing
UY = Tandon School of Engineering
UF = Liberal Studies (Faculty of Arts & Science)
UG = Gallatin School of Individualized Study
US = Silver School of Social Work
UC = School of Professional Studies

If you encounter difficulties during the registration process, or you have questions related to your requirements for the Fall 2020 semester, please contact your academic advisor (or if uncertain, refer to the “Academic Advisor Contacts” on page 1).
This section helps identify some possible options in selecting your fourth course for the fall semester. In addition, Core Advising Guides are available for a more comprehensive sense of requirements for students who are undecided; intending to declare majors in the College of Arts & Science, Global Liberal Studies, or Gallatin; or pursuing the prehealth curriculum.

For course recommendations if considering the major in International Relations, refer to page 10; for Economics, see page 11; and for prehealth professions and science majors, see page 12.

Core Physical & Life Science Options

- **History of the Universe**, HOU-UF 101 (Physical)
- **Science of Technology**, SCTEC-UF 101 (Physical)
- **Life Science**, LISCI-UF 101 (Life)
- **Environmental Studies**, ENSTU-UF 101 (Life)

Core Economics Options

- **Principles of Macroeconomics**, ECI-UF 101 (equivalent to CAS Introduction to Macroeconomics, ECON-UA 1)
- **Principles of Microeconomics**, ECII-UF 102 (equivalent to CAS Introduction to Microeconomics, ECON-UA 2)

Math Course Options

- **Algebra and Calculus**, MATH-UA 9
  This class is a prerequisite to Calculus I and/or Math for Economics I. It does not fulfill the CAS mathematics requirement by itself, but does meet Gallatin’s mathematics requirement. If unsure, consult with your advisor.

- **Calculus I**, MATH-UA 121*
  Calculus I is required for the prehealth track, the Business Studies minor, and certain majors. Note, Economics majors also planning on the minor in Business Studies should substitute Mathematics for Economics I & II (MATH-UA 211 & 212) for Calculus I. If you are unsure whether you are “calculus ready”* or may need to complete a semester of algebra and calculus, please consult with your academic advisor.

- **Mathematics for Economics I**, Math UA 211*
  Required for all Economics Majors, if “calculus ready”*

* Please see [http://math.nyu.edu/degree/undergrad/calculus.html](http://math.nyu.edu/degree/undergrad/calculus.html) to determine whether you are considered “calculus ready,” and able to register in either Calculus I or Math for Economics I
Foreign Language Options

If you are interested in registering for a language class, please refer to the foreign language section of this guide on page 9. Contact your advisor with any questions about foreign language requirements for your intended school/program at NYU.

Other Class Options Frequently of Interest to Students in the LS Core

- **Introduction to Psychology**, PSYCH-UA 1 *
- **Introduction to Macroeconomics**, ECON-UA 1*
- **Introduction to Microeconomics**, ECON-UA 2*
- **Data Science for Everyone**, DS-UA 111
  Applicable to Data Science major or minor
- **Introduction to Computer Programming**, CSCI-UA 0002^  
  Applicable to Data Science minor
- **Power and Politics in America**, POL-UA 300
  Applicable toward Politics major or minor
- **Comparative Politics**, POL-UA 500
  Applicable toward Politics major or minor
- **International Politics**, POL-UA 700
  Applicable toward Politics major or minor
- **Human Evolution**, ANTH-UA 2*
  Applicable toward the Life Science requirement

...and many more! Consult listings through the Albert Course Search!

* Students with AP credit in classes marked with an asterisk (*) should refer to the AP Credit Information on the following page of this guide before registering.

**Students Admitted to the Film & Television Program:**

LS Core students whose admissions letter indicated tracked acceptance to the Tisch Film & TV program should plan on registering for courses in the summer following first year. These students should select humanities or social science classes for the fourth course in their first-year schedule, which counts toward the minimum general education credit requirement at Tisch. A popular option for Film & TV students is Global Cultures, offered through LS. For more information, refer to the Tisch Film & TV Advising Guide.
Advanced Placement (AP) Credit Information

In most cases, an AP exam score of 4 or 5 will award advanced standing credits, and may exempt you from specific courses at NYU. Some of the common exemptions are listed below. For a complete list of equivalencies approved for Arts & Science though, refer to the CAS Bulletin (under Advanced Placement Equivalencies). For other advanced standing examinations, such as International Baccalaureate, contact your academic advisor.

There are two steps necessary to have AP credits applied to your NYU academic records. First, you must have the scores sent from the College Board to NYU (school code: 2562). After the scores have been sent, schedule an appointment with your advisor in the first month of the fall semester to have the AP credits awarded to your transcript.

**Advanced Standing Credits:** To receive NYU credit for a college course taken at another college, you must receive a grade of B or better. Please note: Not all advanced standing credits replace a course requirement or major requirement, and all grades and scores must be evaluated by the LS Advising Center. To apply advanced standing credits, you must send official copies of your AP scores and/or college transcripts. You can have AP scores sent electronically to NYU by contacting the College Board’s AP services at (888) 225-5427 or apexams@info.collegeboard.org.

PLEASE DO NOT SEND TRANSCRIPTS OR SCORES TO THE LIBERAL STUDIES OFFICE.
Foreign Language

Many schools and programs at NYU have a foreign language requirement. Please refer to the chart on the Big Picture section of this guide, or speak with your advisor for details. For any language in which you have no prior background, you should register for the Beginners/Elementary I level. If you have prior language experience, and wish to register for a class higher than the elementary level, you should either:

- Complete the placement exam for that language, or
- Have qualifying scores on AP or IB examinations in that subject, or
- Have a qualifying score on the SAT II exam in that subject*

Please note, some common languages where we have large numbers of heritage speakers enrolled at NYU (e.g. Chinese) may still require permission or a placement exam to register for Elementary I; please read the specific description of the course for more details. Refer to the guidelines linked below for particular languages in order to determine your next step.

If you wish to enroll in a language class other than those listed, contact your academic advisor in Liberal Studies for further guidance.

*If you have a sufficient SAT II exam score, but cannot enroll yourself online, please contact the appropriate language department.

Arabic (Middle Eastern and Islamic Studies)

Japanese, Korean, and Mandarin (East Asian Studies)

Spanish and Portuguese

French

Italian

German

German Language Advanced Placement (AP) Note: If you scored a 4 or 5 on the German Language exam, and you want to enroll in an advanced German class, please contact the Director of Language Programs, andrea.dortmann@nyu.edu, for guidance.

Foreign Language Placement Examination Information

Online exams cannot be used for purposes of exemption, only for placement; and can only be taken once. Students who score above a minimum level on placement exams will be invited to an in-person exam in order to determine exemption. For a complete list of foreign language placement exams, visit CAS Placement Examinations.
4th Class Selection
For Students Planning an Economics Major (Policy Track)

Given the sequential nature of the major, students should speak with their academic advisor early in the first year of study to plan accordingly.

If you plan to major in Economics, you can register for one of the following courses during the fall semester:

- Introduction to Macroeconomics, ECON-UA 1* or Introduction to Microeconomics, ECON-UA 2*
- Principles of Macroeconomics, ECI-UF 101* or Principles of Microeconomics, ECII-UF 102*
- Mathematics for Economics I, MATH-UA 211 (if “calculus ready”) or Intro Microeconomics
- Algebra and Calculus, MATH-UA 9 (if NOT “calculus ready”)

Principles of Micro/Macroeconomics (ECI-UF 101/102) are the Liberal Studies equivalents of Introduction to Micro/Macroeconomics in CAS. Like all seminar classes in Liberal Studies, these are capped at 25 students.

Sample First-Year Plan

<table>
<thead>
<tr>
<th>Fall Semester</th>
<th>Spring Semester</th>

<td>- Writing as Critical Inquiry</td>
</tr>
<tr>
<td>- Algebra and Calculus (if needed), or Intro to Microeconomics</td>
<td>- Intro Microeconomics or Math for Economics I</td>
</tr>
</tbody>
</table>

Prospective economics majors should not enroll in Calculus I.

All economics majors are required to take two courses in the Math department, specifically Mathematics for Economics I (MATH UA-211) and Mathematics for Economics II (MATH-UA 212).

These two calculus-level courses are designed for Economics majors and must be taken at NYU by all Economics majors.

*AP Credit:
Students with AP credit in classes marked with an asterisk (*) should refer to the Advanced Placement Information for Class Selection on page 8 in this guide before registering.

- An AP Micro or Macro Economics with a minimum score of 4 satisfies the corresponding course requirement in the major, and reduces the total number of courses required for the Economics degree.
- AP Calculus does not exempt students from Mathematics for Economics I (MATH-UA 211) or Mathematics for Economics II (MATH-UA 212).
- Students may not apply AP credit in Statistics toward the Economics major.
**4th Class Selection**

For Prehealth Professions Students

Reminder: Supplementary prehealth webinar is Tuesday, June 9th from 7:00-8:00pm EDT. Register for Webinar

All students planning to complete the prehealth curriculum should email ls.advising@nyu.edu prior to registration. In this email, please indicate the subject of the message as "PREHEALTH" and include your name, ID number, and intended major.

*Note that prehealth is NOT a separate major, but the suggested coursework for graduate programs in the health professions.*

---

Diagram:

1. **Do I have Calculus AP credit with a score of 4 or 5, or Calculus credit from a college class?**
   - NO
     - Am I calculus ready, by NYU’s definition?*
     - *http://math.nyu.edu/degree/undergrad/calculus.html
   - YES!
     - Register for General Chemistry I
     - CHEM-UA 125

2. **YES, I am Calculus Ready. Choose one of the options below.**
   - **Option 1**
     - Register for Calculus I: MATH-UA 121
     - If I do this, I will take General Chemistry I in the Spring semester of my first year.
   - **Option 2**
     - Register for General Chemistry I
     - If I do this, I will need to complete Calculus by the end of my sophomore year (or for some students, the summer before sophomore year).
Direct Transition & Internal Transfer

The LS Core is a two-year integrated liberal arts program for students who will complete their education and finish their degree in one of the university's other undergraduate schools. It features a global and interdisciplinary core curriculum that satisfies the liberal arts requirements for bachelor's degrees across NYU.

After your first two years in the Core, there are two methods for declaring a major and completing your degree program at NYU: Direct Transition or Internal Transfer:

- **Direct Transition** means that if you successfully complete the Core requirements in Liberal Studies with a minimum 64 credits, maintain good academic standing (minimum GPA of 2.0), and meet any specific program requirements for your intended school or major, you have the opportunity to transition directly into that degree program as a junior simply with a declaration. Altogether, approximately 9 schools participate in Direct Transition with Liberal Studies, representing nearly 90 distinct major options. The vast majority of Liberal Studies students continue onto a Direct Transition program after sophomore year.

- **Internal Transfer** programs require submission of an application, and where applicable, an audition or creative portfolio. Please note: acceptance to Internal Transfer programs is not guaranteed, but subject to an admissions review. If you are considering any Internal Transfer programs, please speak with your academic advisor early in the first semester to discuss the procedures.

### Direct Transition Programs**

- Global Liberal Studies
- College of Arts and Sciences (CAS)
- Gallatin School of Individualized Study*
- Steinhardt School of Culture, Education and Human Development (select programs)
- College of Global Public Health (GPH)
- Rory Meyers College of Nursing
- Silver School of Social Work
- School of Professional Studies (Tisch Center of Hospitality; Tisch Institute for Global Sport; Schack Institute of Real Estate)
- Tandon School of Engineering (Science and Technology Studies, Sustainable Urban Environment, and Integrated Digital Media)

### Internal Transfer Programs

- Steinhardt School of Culture, Education and Human Development (Portfolio and Audition Programs):
  - Music and Performing Arts
  - Art and Art Professions
  - Stern School of Business
  - Tisch School of the Arts
  - Tandon School of Engineering (Engineering Majors)

* Gallatin School of Individualized Study requires approval of academic concentration plan during first semester of sophomore year.

* A few academic programs have specific courses that must be satisfied prior to transition, including Media, Culture & Communications; Real Estate; Applied Psych and Nursing. For any questions, schedule an appointment with your academic advisor during the first semester to discuss your interests and any special considerations in your future academic planning.
After the LS Core, you have many possibilities!

- College of Arts & Science
- Global Liberal Studies
- Tandon School of Engineering*
- Meyers College of Nursing
- Silver School of Social Work
- Global Public Health
- Gallatin
- Steinhardt*

*Select Programs Offered for Direct Transition
Setting Your Sights on Global Study: Sophomore Year & Beyond

Core students in Liberal Studies are encouraged to study away from New York during the sophomore year at one of NYU’s global academic centers in the fall, spring, or summer semester!

Step One: Look Far and Wide
- Consider all of your options for study away during sophomore year:
  - Abu Dhabi
  - Accra
  - Berlin
  - Buenos Aires
  - Florence
  - London
  - Madrid
  - Paris
  - Prague
  - Shanghai
  - Sydney
  - Tel Aviv
  - Washington D.C.

- Research the academic offerings, housing options, and character of the city and global site at www.nyu.edu/studyabroad.

Step Two: Meet with a Global Academic Advisor
- After setting your academic goals and researching study away options, schedule an appointment to meet with an academic advisor in the Liberal Studies Global Programs Office to discuss how the proposed site fits into your academic plans, and to complete your petition by March 1, 2021 to complete ACM and GWM in the same semester of sophomore year. For an appointment, contact ls.abroad@nyu.edu.

Step Three: Familiarize Yourself with the Local Cultural Centers in New York
- NYU has many cultural centers for each of the global sites, which are listed below. Sign up for their mailing list to receive announcements, and attend some of the upcoming cultural events.
  - La Maison Francaise
  - Africa House
  - Deutsches Haus
  - China House
  - Casa Italiana
  - CLACS (Center for Latin American and Caribbean Studies)
  - King Juan Carlos of Spain Center (for both BA and Madrid)
  - Kevorkian Center for Near Eastern Studies
  - Abu Dhabi Institute

Helpful Tips: Know Your Deadlines, Submit Your Petition & Apply Early
- If you are interested in study away, we encourage you to start the conversation as early as possible with a Global Academic Advisor. Please note, in addition to the Study Away application, students are required to submit a petition through the Liberal Studies Global Programs Office to take Arts & Cultures Modern (ACM) and Global Works & Society Modern (GWM) in the same semester to enable study away in their sophomore year.

Some useful terminology...

**GENERAL ACADEMIC TERMS**

**Albert**
Albert is the web-based information system used by students to access registration as well as other important academic and financial records. At NYU, students and their advisors specifically use Albert to register for classes, view midterm and semester grades, request transcripts, confirm financial aid awards and account balances, and more. Albert is accessed through NYUHome. **[And in case you were curious, the system is named after the first president of NYU, Albert Gallatin]**

**Multi-Factor Authentication (MFA)**
All NYU students are required to enroll in NYU’s Multi-Factor Authentication (MFA). MFA adds a second layer of security to help prevent anyone other than you from accessing your sensitive information online.

**Credits / Points / Units**
These terms are essentially interchangeable, and refer to the number of credits each class is worth. As a reminder, full-time students may register for 12-18 credits each semester, and a bachelor’s degree requires a minimum of 128 credits.

**Recitation**
A recitation is a class session (usually weekly) attached to a larger lecture that enables smaller group discussion about concepts presented during the lecture. Although all students registered in the course attend lecture together, the smaller recitations are scheduled on various days and times. If a course is structured as a lecture with recitations, you must register for both the main lecture and one of the corresponding recitations in order to be properly enrolled. Please note courses in Liberal Studies are taught as small seminars, and therefore recitations are not entailed. Other schools at NYU might nonetheless have lecture courses where recitations are necessary, depending on the elective classes chosen.

**Prerequisites & Co-Requisites**
A prerequisite is a specific course, placement test, or advanced standing score that is required prior to registering for another course (e.g. Calculus I would be a prerequisite for Calculus II). A co-requisite is a course that must be completed in tandem with another course (e.g. Principles of Biology Lab must be taken at the same time as Principles of Biology II).

**REGISTRATION TERMS**

**Course Number / Class Number / Section Number**
A sample listing from the Course Search is provided below. The Course Number (highlighted purple) indicates the department and school code, followed by the number for that particular course. The Class Number (highlighted red) is usually a 4 to 5-digit code associated with a particular section of the course offered at a specific day and time. In the example below, **Class #14289** identifies section 001 (offered Mon/Wed from 8:00-9:15am) for the course, ACA-UF 101 Arts and Cultures across Antiquity. The **Class #** is what you need to enter in Albert when attempting to register. Also included in the special notes section is that the course is reserved for LS Core students only.

**Fall 2020**

Open & Closed Classes
When registering for classes, you will need to locate courses listed as Open (referring to the sample image, open/closed status is indicated there in green type). Once the maximum number of students has enrolled, the course will then display as closed, and you will need to find an alternate section with seats still open.

Waitlist
In some cases, the class you want will be closed. If a waitlist option is available, you may place yourself on the list. If you registered for another course in the meantime though, remember you must use the swap function. If seats open in your desired course or section, students are accepted from the waitlist on a “first come, first served” basis. Please note not all closed classes offer a waitlist (Liberal Studies, for instance, does not use waitlists).

Swap Function
When you want to replace one class on your schedule with another, the SWAP function helps ensure that the class you intend to remove from your schedule is not dropped until you are successfully enrolled in the new class that you intend to add. The swap function is also used with waitlists to designate the class to be swapped out if accepted into a course through the waitlist. Please refer to the Albert Registration page for more detailed instructions.

Shopping Cart
Albert offers a virtual “shopping cart” in which to place your intended classes until you are activated to register on your appointed date and time. The shopping cart can ease your registration process, since your most desired classes have already been identified and queued for registration. Note, however, just because a course was placed in your shopping cart does not mean that you are guaranteed a seat in the class. Students are therefore advised to have backup courses in their cart, just in case the first choices are full once activated.

For any other questions about terms used during registration, contact your academic advisor!
