

Academic Advising

Liberal Studies Core

Advising Guide for Students considering the College of Arts and Science (CAS)

Required First Year Core - Fall Semester

- ___ Arts and Cultures across Antiquity (4 credits), ACA-UF 101
- ___ Global Works and Society: Antiquity (4 credits), GWA-UF 101
- ___ Writing as Exploration (4 credits), WREX-UF 101
- ___ Elective, CCC* or Major Requirement (4 credits)

Required First Year Core - Spring Semester

- ___ Arts and Cultures towards the Crossroads (4 credits), ACC-UF 102
- ___ Global Works and Society in a Changing World (4 credits), GWC-UF 102
- ___ Writing as Critical Inquiry (4 credits), WRCI-UF 102
- ___ Elective, CCC* or Major Requirement (4 credits)

Required Second Year Core (to be taken in alternating semesters):

- ___ Arts and Cultures of Modernity (4 credits), ACM-UF 201
- ___ Global Works and Society: Modernity (4 credits), GWM-UF 201
- ___ Elective, CCC* or Major Requirement (24 credits)

64 Total Credits Expected

ACM and GWM are taken in alternating semesters during sophomore year. If planning to Study Away, students must consult with their academic advisor during Spring semester of their First Year to determine whether their planned NYU Global site offers ACM/GWM.

**To graduate from CAS, Liberal Studies students must complete the Core Program, satisfy their major requirements and satisfy the remaining "College Core Curriculum" (CCC) requirements, including Physical Science & Life Science, Quantitative Reasoning, and Foreign Language.*

At least one approved math or science is required for transition from Liberal Studies to CAS. Students are advised not to register for Quantitative Reasoning (QR) until they are sure of their major, since some required classes for certain majors and minors may satisfy this requirement.

Physical and Life Science options in Liberal Studies that satisfy CAS College Core Curriculum (CCC) requirements:

History of the Universe, Science of Technology, or other Natural Science I equivalent (4 credits) *
Life Science, Environmental Studies, or other Natural Science II equivalent (4 credits) *

***One science or math class is required before transition out of the LS Core. However, if transitioning into CAS, you are encouraged to complete both Natural Science I and Natural Science II equivalents.**

Connect with your academic advisor ASAP if you have AP (scores of 4/5), IB (scores of 6/7) or A-level (B or higher) science or math credits.
