Elective	<input type="checkbox"/>

Other Degree Requirements

- **GLS Science:** Choose **one Natural Sciences** (History of the Universe (HOU-UF 101), Science of Technology (SCTEC-UF 101), Life Science (LISCI-UF 101), Environmental Studies (ENSTU-UF 101), Human Evolution (ANTH-UA 2) or Living in the Anthropocene (LIVN-UF 101).
 - **Quantitative Requirement:** fulfilled with UGPH-GU 20 Biostatistics
 - **Global Cultures:** Usually taken during the first year, options include African Cultures, East Asian Cultures, Caribbean Cultures, Latin American Cultures, Middle Eastern Cultures or South Asian Cultures
 - **Language:** GLS has a language study requirement as well as a language proficiency requirement. Students must both attain proficiency through at least the intermediate level *and* study in the language of their junior year site during each semester abroad. In addition, students must have proficiency through the beginning level (normally courses I/II in a sequence, which may be taught in a single intensive semester) before studying away.
- **Students are required to take 5 GPH Core course + at least 2 GPH elective courses. For a list of GPH elective options, please refer to <https://publichealth.nyu.edu/undergraduate/courses>.**
- Junior Year Away: A full academic year of [international study at a GLS site in the junior year](#) is required. **NYU Accra** and **NYU Buenos Aires** offer courses in Global Public Health (as well as NYU London, by petition only).
